

Physician, Maternal Fetal Medicine

Regular Full Time Opportunity
BC Women's Hospital + Health Centre
Vancouver, BC Canada

We are seeking people with skills, expertise, and interest in pursuing an academic Maternal Fetal Medicine career which fits the future vision of the Division of Maternal Fetal Medicine as part of the University of British Columbia, and the BC Women's Hospital and Health Center in beautiful Vancouver, BC.

As the successful applicant for this position, you will have accredited subspecialty training in Maternal Fetal Medicine and be eligible for:

- Certification with the [Royal College of Physicians and Surgeons of Canada](#) (RCPSC)
- Licensure to practice from the [College of Physicians and Surgeons of BC](#) (CPSBC)

As a member of the medical team, you will be providing subspecialty clinical care in the area of high risk pregnancy, applying current research evidence and best practice standards. You will also participate in the recognized outreach, inpatient and outpatient care activities. In your role with the University, you will pursue and excel in academic activities involving research, teaching and administration.

BC Women's Hospital and Health Care Centre is the only facility in British Columbia devoted primarily to the health of women, newborns and families. It provides a broad range of specialized women's health services that address the health needs of women of all ages and backgrounds. BCW is one of the largest maternity facilities in Canada, with over 7,500 births a year! As an academic health centre, BCW's mandate includes providing strong leadership in research and the education and professional development of health care professionals.

The University of British Columbia (UBC) is Canada's third largest university and consistently ranks among the 40 best universities in the world.

Apply for this opportunity today by sending your Curriculum Vitae, and two letters of reference to:
