1430-1445  *Diet-induced obesity may alter uterine natural killer cell biology at maternal-fetal interface*
   Jennet Baltayeva

1445-1500  *Plasminogen activator inhibitor-1 in endometriosis*
   Fahad Alotaibi

1500-1515  *Time-lapse morphokinetic analysis of embryos cultured in cook versus global media*
   Jennifer Hilton

1515-1530  *In utero SSRI antidepressant exposure predicts callosal microstructure in term-born neonates*
   Kayleigh Campbell

1530-1545  *SMAD1/5 mediates bone morphogenetic protein 2-induced up-regulation of BAMBI expression in human granulosa-lutein cells*
   Long Bai

1545       Refreshment Break
1600-1615  *Trends in neonatal mortality and morbidity following spontaneous and iatrogenic preterm delivery*
Lindsay Richter

1615-1630  *Does fertility preservation in breast cancer patients affect cancer recurrence rates?*
Shaina Lee

1630-1645  *Bone morphogenetic protein 2 (BMP2) promotes human trophoblast cell invasion by up-regulating n-cadherin*
Hongjin Zhao

1645-1700  *Fertility and reproductive outcomes of HIV+ and HIV- women in the Carma Cohort Study*
Clara Van Ommen

1700  Judges deliberation and selection of winners
