

# COMBINED PERINATAL ROUNDS

**Wednesday, March 15, 2017**

**12:00 to 1:00 pm**

**\*\*\*\* Room 1U27A/B \*\*\*\***

## TOPIC

# Two-Step Delivery and Intact Cord Resuscitation

## GOALS/LEARNING OBJECTIVES

- To describe the physiological mechanism of birth of the fetal trunk
- To explain the mechanics and hemodynamics of shoulder dystocia
- To explain the acid-base physiology of neonatal hypoxic encephalopathy caused by shoulder dystocia
- To incorporate physiological two-step delivery into a definition of shoulder dystocia
- To describe the immediate hemodynamic and acid-base benefits of delayed cord clamping

## PRESENTER

*Dr. Andrew Kotaska*

*Territorial Clinical Lead,*

*Women's and Children's Health, Northwest Territories*

*\*\* This event is an accredited group learning activity (Section 1) as defined by the Maintenance of Certification program of the Royal College of Physicians and Surgeons of Canada \*\**
