Faculty Form Objectives

- To highlight the different KT strategies employed by our faculty members;
- To discuss KT activities that worked well and those that did not;
- To share lessons learned in KT activities;
- To provide a forum where researchers can receive guidance on their projects; and
- To cultivate new collaborations across divisions and specialties

Workshop Objectives

By the end of this workshop, participants will be able to:

- Identify basic KT terms and concepts
- Describe the importance of integrated KT activities in the research process
- Differentiate between appropriate and inappropriate KT activities when considering research evidence
- Articulate the components of an implementation strategy.
