

COMBINED PERINATAL ROUNDS

Wednesday, February 14, 2018

12:15 to 1:00 pm

Room T2-527 TACC

TOPIC

**Placental Pathology:
What does it add to neonatal care and
management of subsequent pregnancies?**

GOALS/LEARNING OBJECTIVES

- To review common placental lesions and implications for neonatal care or future pregnancies
- To discuss new opportunities for improving the utility of placental pathology in neonatal and prenatal care

PRESENTER

*Dr. Jessica Liauw
Fellow, Maternal Fetal Medicine*
