“An Obstetrician In Your Pocket”

GOALS AND LEARNING OBJECTIVES

- Show how medicine will make two leaps forward with the shift from human monitored to machine monitored care
- Review the evidence for telemedicine in obstetric care
- Understand the latest evidence for home/remote monitoring of gestational hypertension, gestational diabetes, pre-eclampsia, transmittable disease; fetal growth, heart rate and tracing
- Demo sophisticated patient-portals/apps for pregnancy
- Tremble at how computer algorithms in obstetrics can already outperform clinicians and improve outcomes
