Service on University Committees .....	146
Presentations at National & International Scientific Meetings .....	158
Awards of Distinction/Special Appointments/Honours Received .....	167

## **Chairman's Report**

It is with pleasure that we present the Annual Report for the Department for the year June 30, 2009.

### **People**

Our business is people, mostly especially the women of British Columbia and their babies and families for whom we provide care. "Creating Health" is very much at the core of what we do! Within the departmental "family" there have been changes:

Fred Bryans the second, and longtime Head of the Department, died in February. Fred was committed to the task of creating health. His commitment and calm gentlemanly demeanor served all of us well as a model. Through his generosity and that of his wife Jane, his work will be continued through the establishment of the Fred Bryans Master Teacher Program.

Nelly Auersperg joined our Department on her "retirement" and has, reluctantly, put aside her microscope. Her work has significantly advanced the understanding of cancer in general and ovarian cancer in particular. She has been both a driving force and an inspiration. We wish her well in her second retirement!

Roxana Geoffrion joined the tenure track faculty to build our section of Female Pelvic Medicine and Surgical Reconstruction and to enhance our Surgical Education Program.

Ariadna Fernandez joined us as our new Research Manager and immediately had an impact in facilitating our research effort.

At the close of the year I was delighted that we were able to finalize the recruitment of K.S. Joseph to the department. K.S. is one of the leading perinatal epidemiologists in Canada and his move to Vancouver will have major positive effects on our research and educational endeavor. His recruitment was made possible by collaboration between our department, the School of Public and Population Health and the Children's and Family Research Institute.

Some have come, or moved on; others remain in the family but with changed roles:

Peter Leung assumed the role of Associate Dean of Graduate Studies in the Faculty of Medicine.

Geoff Hammond has stepped up to assume leadership of the Graduate Program within our own department.

Nancy Kent completed her term as Post Graduate Program Director. While in that position Nancy oversaw a doubling and remodeling of our program which truly became "provincial". Under her leadership we have a program that is preeminent in the country. As she moves into a new chapter of life I am deeply grateful for her work in this area and her commitment to the department. Her shoes will be ably filled by Liz Joa.

Nancy Kent has also served over close to 2 years as Acting Head of the Division of Maternal Fetal Medicine. In this task she has provided leadership and stability, with the focus once again on "creating health".

Amanda Skoll was appointed Division Head and I know we can look forward to productive and fruitful times under her leadership.

Paula Lott left the staff at St. Paul's Hospital but remains in our department based at Royal Inland Hospital in Kamloops. I am pleased to welcome Markéta Gogela-Spehar and Suzanne Kim who have been appointed in her stead.

Marie-France Delisle has been the Clinical Clerkship Coordinator at BC Women's Hospital and has been active in the development and implementation with the Interprofessional Educational Initiative around Intrapartum Care. Her roles in both of these spheres has been taken up by Dena Bloomenthal and am extremely grateful to each of them for their commitment to this most important endeavor.

In spite of all these changes we still look to build and recruit. Our priorities in this regard continue to be within the Division of Reproductive Endocrinology and Infertility and in the General Division. We are also keen to attract scientists in the fields of Psychology, Oncological Science and Fetal Physiology.

### **Care**

We have continued within the city of Vancouver to facilitate operative gynaecologic care. We have worked hard to minimize the sites at which physicians are required to attend, to rationalize the allocation of operating room time and we have consolidated urogynaecology activity at St. Paul's. The multitude of sites within the city in which we are involved continues to be problematic but I do believe we have made some progress. The department is front and center, as always, in trying to build unified action across BC Women's Hospital and St. Paul's Hospital with respect to obstetrical care. Again there remain challenges but once again I believe progress is being made. We have continued our efforts towards a more unified safety and quality initiative across all sites within the city of Vancouver, at least from a departmental perspective.

### **Education**

Our educational endeavors are documented elsewhere in this report but I would highlight the Round Table in Surgical Education held in November 2008 and the ensuing developments of the Laparoscopic Surgical Skills Task Group to confront the realities of advanced laparoscopic surgery, develop opportunity for our faculty and to enhance the teaching and acquisition of these skills by our post graduates. In the same vein we are moving ahead with advanced education in pelvic pain and endometriosis and the year saw our first Fellow in Female Pelvic Medicine and Pelvic Floor Reconstruction, another collaborative endeavor, this time with the Department of Urological Sciences.

### **Research**

Our research funding continues to increase as is documented elsewhere in this report. I would like to comment on the unfolding of the recommendations of the Research Task Force and the appointment of a Research Advisory Group. This group is embarking on a needs assessment which will guide our research promotion endeavor. One of the recommendations of the Research Task Force was to absorb the "Basic Science Division" into the other subspecialty divisions. This recommendation has been implemented. It is important for all to appreciate that this move is designed to enhance the activities of the Basic Science Division and improve interaction and collaboration between basic scientists, clinician scientists, clinician investigators and clinicians – "through knowledge creating health"!

Under research I would also like to highlight the necessity for Research Ethics Review Boards and the large amount of time consuming work that these demand. They have been and are currently well served by individuals within the department who are prepared to give of their time and energy to the various UBC Review Boards that there are in existence. However, this is always an area of need and I would encourage any who are so inclined to come forward.

### **General Issues**

The financial crisis of 2008 impacted all of us but the reassessment of the status of endowments held at UBC had a huge impact on the departmental budget during this year. While we all expected significant reductions the requirements for recapitalization undertaken by the Fund Managers at UBC resulted in a reduction of 60% in one spending allocation. This resulted in significant pain for many within the department and has caused a major rethink with respect to future planning. Hopefully this will be an interim situation but it has not been a pleasant one!

The Graduate Program reached the age of 25 this year and continues to flourish and develop. There are very few departments in the country which are home to such a program. The faculty, students and staff who make up this program are a rich source of knowledge generation and education. It is a resource to be treasured!

As the year ended we awaited the Academic Review of the REI Division, another step in the evolution of the division. The impact of the service demands and revenue generation of IVF on academic reproductive endocrinology has been felt across North America. We are fortunate to have a broad based Reproductive Endocrinology Division and yet this may have impacted negatively our IVF enterprise. Moving forward in a way that will safeguard a sound, broad education for our postgraduates and subspecialty residents and at the same time maintain IVF services will require partnership and innovation – and inevitably change!

We are a clinical department and the majority of our faculty are clinicians. Only at the University of British Columbia are these clinicians separated by the terms “clinical faculty” and “tenure track faculty”. Sadly, I fear, it will be a long time before this situation changes. Nevertheless, from a departmental perspective we have tried to treat faculty as one and to respect and value the commitment and contributions of all, given and received in light of their individual circumstances. I was pleased therefore when, at our interim planning and visioning session, members of “clinical faculty” came forward with a template by which to evaluate scholarly contributions. This is what I would expect of a committed department! Imagine my surprise, yes and anger, when this discussion was deemed “inappropriate” by the Office of Clinical Faculty Affairs. Perhaps I should not have been surprised! What saddened me most however, was the fact that members of our department who were ill at ease with the discussion could not bring themselves to voice that feeling either at the time or later in private (and as I write this, they still have not done so)! I guess that’s transparency, Vancouver style!

A significant amount of time and energy on the part of many people has been spent this past year on thoughts and talks and actions over capital redevelopment. With respect to our department this has involved Children’s and Women’s Hospitals, St. Paul’s Hospital and, more remotely, Surrey Memorial Hospital. What is striking about these discussions is the lack of synergy and the lack of transparency. There has been virtually no public debate on these issues, yet these are issues that impact the public purse and will affect the provision of health care for many years to come. In my opinion, the lower mainland Health Authorities should work together and formulate a plan for capital reconstruction that is informed by the needs of the population at large, recognizing the provincial nature of many services provided within the lower mainland. Furthermore, academic clinical medicine must be a part of this discussion. Without such comprehensive planning we are likely to continue to function in a loosely connected framework for many generations.

I thank each and every one within and beyond the department whose time and energy help to advance the health of the women of British Columbia and their offspring—through knowledge creating health.

Respectfully submitted,

**Robert M. Liston, MB, ChB, FRCSC, FRCOG, FACOG**  
**Professor and Head, Department of Obstetrics and Gynaecology**

## Dr Frederick Edward Bryans 1924–2009

Dr Fred Bryans died on 11 March 2009.

Fred received his formal medical education at the University of Toronto (MD 1946, followed by residency training in obstetrics and gynecology), Harvard University (graduate research), and at leading cancer treatment centres in Europe.

Dr Bryans spent his professional career as a geographic full-time faculty member in the Department of Obstetrics and Gynaecology at the University of British Columbia. In 1954, at the age of 30, he was appointed Assistant Professor. In 1960, at the youthful age of 36, he became Professor and Chairman of the Department, a post in which he served with distinction until 1978. During his 18 years as Department Head, he laid the foundation and prepared the department for its future development. Fred related well to a wide range of very different people. He appointed faculty from strikingly different backgrounds and was supportive and appreciative of their diversity. Fred fostered a unique, supportive environment within the Department with a friendly and collegial atmosphere among faculty, trainees and supporting staff members. There was a surprising lack of hierarchy, which made going to work truly a pleasure. Education and research endeavors were supremely important and valued. He retired from his University position in 1989 but remained active in Departmental and University affairs until shortly before his death.

Fred received many important awards and had numerous accomplishments during his distinguished career as teacher, academic and practicing obstetrician and gynecologist. Graduating classes of the UBC Medical School honored him with Best Educator awards. Dr Bryans was also a recipient of the Queen Elizabeth II Silver Jubilee Medal.

His publications included scholarly works on endocrinology, cancer, congenital abnormalities, urinary incontinence, and other areas. His most recent work was started in 2004 at the age of 80 when he began the daunting task of writing the book documenting the history of the Department of Obstetrics and Gynaecology and some aspects of the specialty in the early days of the University of British Columbia Medical School, published in 2005. This book is yet another of Fred's many gifts to the Department.

Dr Bryans remained the accomplished generalist who excelled in the practical as well as academic aspects of our specialty. As trainees, we were impressed with his management of challenging obstetrical and surgical cases referred to the Professor by colleagues from all areas of the province—truly a testament to his stature as clinician, obstetrician, and the gifted surgeon that he was. Through his role as an outstanding educator and planner as well as a distinguished and accomplished physician, he contributed significantly to the care of the women of British Columbia in a career spanning two generations.

At the national and international levels, Fred served on the council and committees of the Royal College of Physicians and Surgeons of Canada, he was a founding member and president of the Association of Professors of Obstetrics and Gynaecology of Canada (APOG), vice president of the Association of Professors of Gynaecology and Obstetrics in the United States (APGO-USA), vice president of the Society of Obstetricians and Gynaecologists of Canada (SOGC), and fellow of the Royal College of Obstetricians and Gynaecologists (UK).

Fred always had the interest of his department, students, trainees, colleagues, and patients foremost. He was a man of modesty and the highest integrity. In addition to all his many qualities, we learned and benefited from his wisdom, common sense, good judgment, sense of ethics, fairness, and generosity.

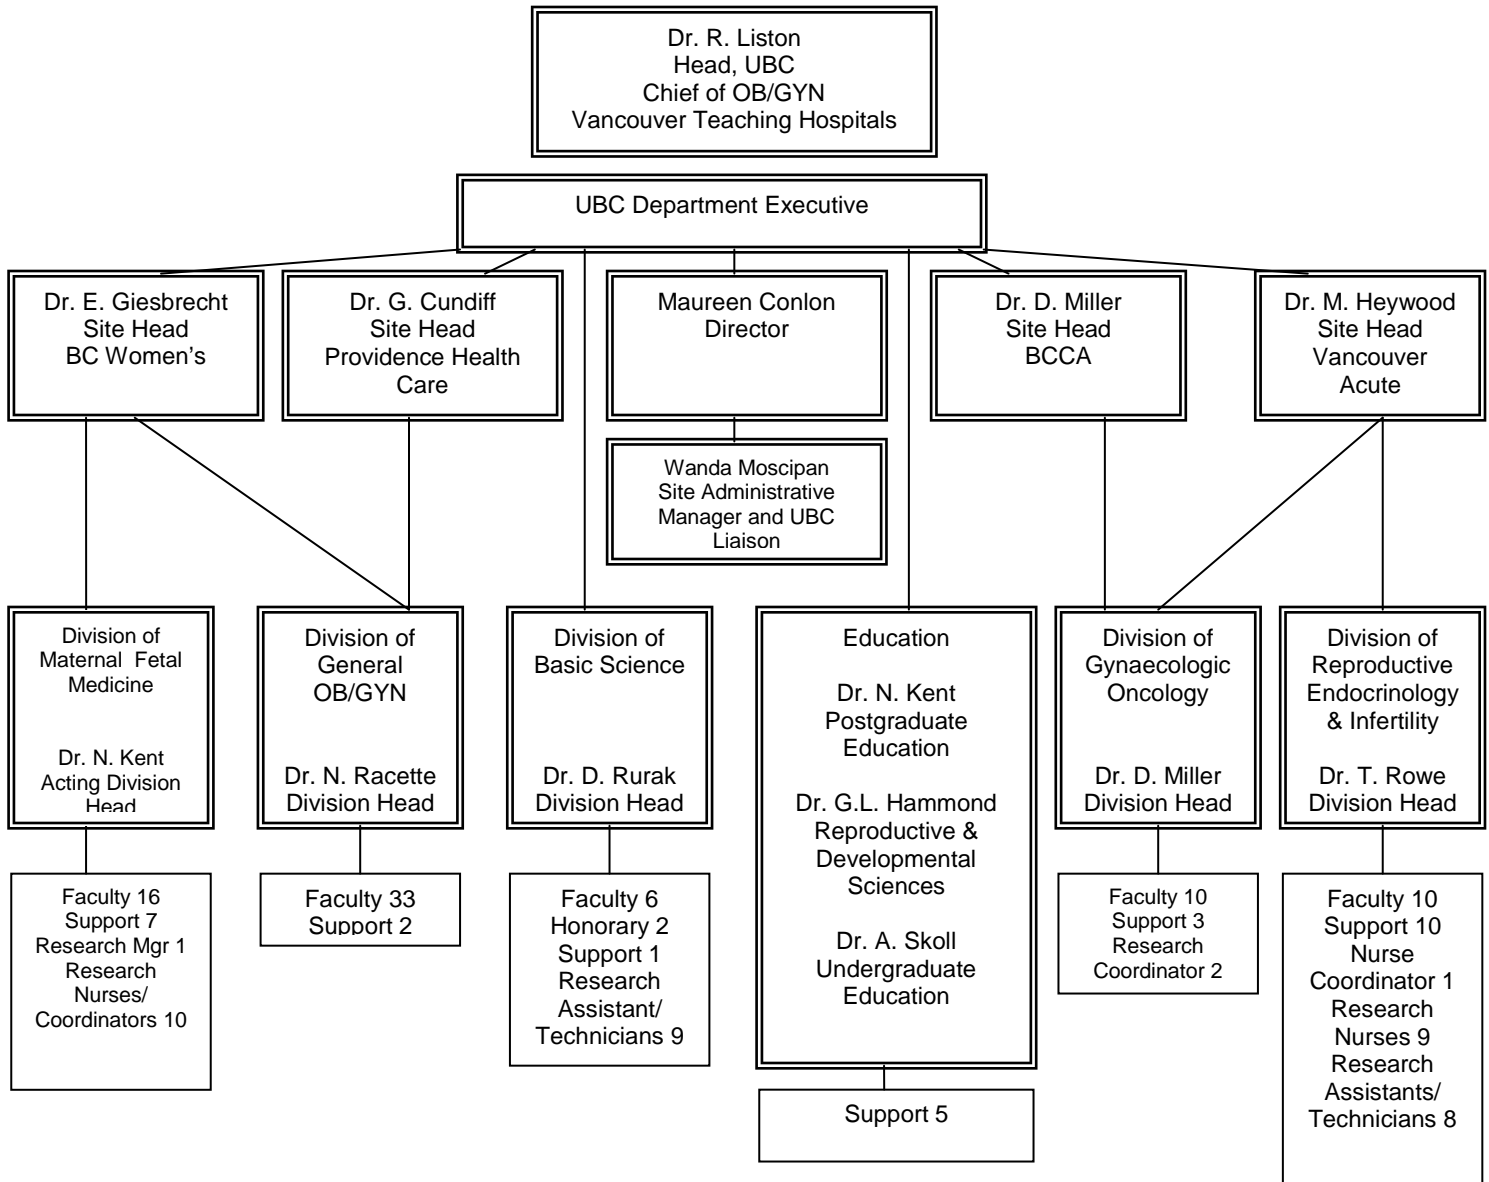

Fred married Jane in 1975. They shared a loving, joyful, fulfilling life with a mutual devotion to the outdoors, hiking in the mountains and backcountry. Throughout his terminal illness, Jane was a stalwart and devoted companion who helped, nursed, and supported him.

If there is a single acclaimed and enduring attribute of Fred Bryans, it is that he was the ultimate gentleman and scholar who led by example. He left these legacies to his trainees, colleagues, and family who have been so fortunate to have known him and to have been influenced by him.

- Basil Ho Yuen, MBChB
- Peter McComb, MBBS

## DEPARTMENT OF OBSTETRICS AND GYNAECOLOGY

### ORGANIZATIONAL STRUCTURE

## **MISSION STATEMENT**

**Goal: Optimum health for the women of B.C. and their offspring.**

**1. This long term goal will be achieved overall by the following mechanisms:**

- Working with our provincial partners on the development and implementation of innovative health care and disease prevention
- Through the education of the student, general and specialist physicians in all aspects of Obstetrics and Gynaecology
- Through the promotion and conduct of related academic enquiry

**2. Intermediate (5 Year) Goals**

*Steps towards achieving long term goals*

Within five years, the Department will make significant progress towards the following:

- Achieving excellence in clinical care, education and research
- Becoming an integrated, cohesive Department where members feel supported and valued
- Increased provincial collaboration
- Implementing the role/model of the academic physician
- Be recognized widely as leaders of women's health

**3. Implementation Strategies**

*Mechanisms by which the intermediate goals may be achieved*

**A. Achieving excellence in clinical care, education and research**

**Clinical Excellence**

- Consolidate and increase hospital gynaecology resources in Vancouver/Richmond
- Develop patient-focused programs of care, e.g. prenatal anomaly screening, early pregnancy assessment, chronic pelvic pain, academic gynaecological ultrasound
- Increase collaboration with "Specialized Women's Health Centre"
- Promote provincial networks
- Encourage an attitude of enquiry
- Adopt "best practice" approach
- Foster inter-divisional activity

**Education**

- Review Clerkship to better address needs
- Explore additional alternative sites for student clinical education
- Establish teleconferencing with three Regional centres
- Develop web-based interactive learning aids
- Increase the number of postgraduate positions
- Explore additional sites for postgraduate education
- Define expectations and roles for each faculty member
- Remunerate educational activity undertaken by clinical faculty not on CASC arrangements

**Research**

- Improve Departmental research infrastructure (directory of funding sources, secretarial support and expertise, cross-divisional communication, start-up/support funds)
- Pursue all and any opportunity for funds (new funding sources, partnerships, etc)
- Provide guidance and advice to clinical researchers

- Promote faculty awareness of the support available within the health centres
  - Define expectations and roles for each faculty member, resident, fellow, graduate student.
- B. Becoming an integrated, cohesive department where members feel supported and valued
- Develop a clear Departmental governance structure
  - Develop a framework for decision making based on principles of transparency, fairness and mutual respect
  - Develop principles for the rational distribution of Department support
  - Enhance communication across the Department
  - Carry out annual review for each faculty member
  - Promote the concept of “faculty”, embracing all department members
  - Consolidate hospital-based resources
  - Increase inter-hospital collaboration
  - Clarify Departmental / Divisional roles and expectations for each Department member
- C. Increased Provincial collaboration
- Continue and further develop collaboration with provincial organizations (e.g. BC Cancer Agency, BC Research Institute, BCRCP, BCMA)
  - Explore increased links with Victoria General Hospital, Royal Columbian Hospital, Surrey Memorial Hospital and Prince George Hospital across the Departmental mandate
  - Make physician resources for BC a Departmental issue
- D. Implementing the role/model of the Academic Physician
- Reward academic activity (financially)
  - Pursue clinical academic service contracts and/or employee agreements
  - Provide time, support, advice and mentorship for young faculty
  - Identify needs within the Department and foster recruitment to meet those needs
  - Serve as role models for enticing medical students to our speciality and residents into fellowship programs
  - Define Departmental expectations for each faculty member
- E. Be recognized widely as leaders of women’s health
- Publish and distribute widely an annual report
  - Encourage Department members to play enhanced role in academic health centre administration and in other medical organizations
  - Develop a list of media spokespersons within the Department to respond to requests: coordinate with UBC Speakers Bureau
  - Maintain record of media/government communication
  - Develop a sense of pride in, and celebrate, our accomplishments
- F. Academic Physician
- Define Departmental expectations for each faculty member
  - Reward academic activity (financially)
  - Pursue clinical academic service contracts and/or employee agreements
  - Provide time, support, advice and mentorship for young faculty
  - Identify needs within the Department and foster recruitment to meet those needs
  - Serves as role models for enticing medical students to our specialty and residents into fellowship programs
- G. Public Profile
- Publish and distribute widely an annual report
  - Encourage Department members to play enhanced role in academic health centre administration and in other medical organizations

- Develop a list of media spokespersons within the Department to respond to requests: coordinate with UBC Speakers Bureau
- Maintain record of media/government communication
- Develop a sense of pride in and celebrate our accomplishments

**Values: To achieve our vision, we will be guided by the principle,**

**“Everyone’s a teacher, everyone’s a learner.”**

This emphasizes our belief that we can all learn from each other. The following values will also guide our activities:

<i>Commitment:</i>	We are dedicated to what we do.
<i>Competence:</i>	We believe in doing it right and doing it right the first time.
<i>Continuous Improvement:</i>	We will seek to always improve on what it is we do.
<i>Empowerment:</i>	We accept responsibility for our activities, individually and collectively, and will use this responsibility in a constructive manner.
<i>Organizational Excellence:</i>	We will develop an organizational structure that encourages excellence.
<i>Teamwork:</i>	We will work in a cooperative fashion to produce better results.
<i>Trust:</i>	We believe in open communication with each other. We will respect differences in race, religion and gender and these shall not be barriers to development in our Department.

## **FACULTY AND DEPARTMENTAL ORGANIZATION**

**Professor and Head: Robert M. Liston**

### **Site Heads**

Cundiff, Geoffrey  
*Providence Health Care*  
Giesbrecht, Ellen  
*Site Head, BC Women's*  
Heywood, Mark  
*Vancouver Acute*  
Miller, Dianne M.  
*BC Cancer Agency*

### **Division Heads**

Kent, Nancy E. (Acting)  
*Division of Maternal Fetal Medicine*  
Miller, Dianne M.  
*Division of Gynaecologic Oncology*  
Racette, Dr. Nicole  
*Division of General Obstetrics and Gynaecology*  
Rowe, Timothy C.  
*Division of Reproductive Endocrinology and Infertility*  
Rurak, Dan W.  
*Division of Basic Sciences*

Beresford, Peter  
 Cox, Michael

Galliford, Brian W.  
 Havelock, Jon C.  
 Heslip, Laura A.  
 Hunt, Harold G.  
 Jackson, Gary C.  
 Johnston, William G.  
 Kingston, William G.R.

Lajoie, Jennifer M.

Mackoff, Harley P.  
 Mitenko, Nancy  
 Newbigging, James D.  
 Oakes, Jennifer  
 Quinlan, David J.  
 Roberts, Jeffrey E.

Robson, Helen J.  
 Seethram, Kenneth  
 Wallace-Chau, Dhea

**Associate Members**

Ballem, Penny J  
*Clinical Professor, Hematology*

Basson, Rosemary  
*Clinical Professor, Psychiatry*

Irving, Julie  
*Clinical Assistant Professor, Pathology &  
 Laboratory Medicine*

Janssen, Patti  
*Associate Professor, Health Care &  
 Epidemiology*

Cebellos, Katherine  
*Clinical Assistant Professor, Pathology &  
Laboratory Medicine*  
Clement, Philip B.  
*Professor, Pathology & Laboratory Medicine*

Cooperberg, Peter  
*Professor, Radiology*

Emerman, Joanne T.  
*Professor, Cellular & Physiological Sciences*

Harris, Susan J.  
*Clinical Professor, Family Practice*

Hoskins, Paul  
*Clinical Professor, Medical Oncology*

Huntsman, David  
*Associate Professor, Pathology & Laboratory  
Medicine*

Innis, Sheila M.  
*Professor, Paediatrics*

Ionescu, Diana  
*Clinical Assistant Professor, Pathology &  
Laboratory Medicine*

Knight, Bryan  
*Clinical Assistant Professor, Pathology &  
Laboratory Medicine*  
Magee, Laura A.  
*Clinical Associate Professor, Medicine*

Misri, Shaila  
*Clinical Professor, Psychiatry*

Naus, Gregory  
*Clinical Professor, Pathology &  
Laboratory Medicine*

## **BUSINESS AND FINANCIAL SUMMARY**

Over the period of July 2008 to June 2009, we have continued to meet the challenges of tight budget controls and limited financial resources. Monies allocated for undergraduate and postgraduate teaching, resident educational activity and educational program infrastructure have been stable and have enabled us to administer these programs effectively.

We welcomed Ariadna Fernandez to the department research manager role and she has very ably in a very short period of time coordinated and promoted research activities across the department. The research studies inventory continues to grow as does the number of research students, coordinators and assistants on that corridor!

Helen Davies continues to streamline our databases and website and we remain thankful for her expertise and ability to move us forward technologically. Both Wanda Moscipan and Helen Davies have continued their involvement with the Faculty of Medicines ADAPT project which promises an integrated faculty wide appointment process and web based CV database.

The CTAA (Clinical Teaching Accountability and Allocation) Committee continues to function under Dr Woo's leadership and the department remains committed to allocating and dispersing PGME and Undergrad program funds to clinical faculty for their teaching contributions in those educational programs.

The department is undergoing external review in July 2009 as Dr Liston prepares to step down from his department head role in 2010. Wanda Moscipan is to be congratulated on pulling together a very comprehensive document which will assist the reviewers with this task.

We have seen a few changes to our administrative team during this reporting period: Melissa Lambrecht left to join the WHRI and we welcomed Lee Smith from BCCA in June to this post. While Rosemarie Garcia was on maternity leave, Kerrie Glover very ably covered this role as well as her own and we look forward to Rosemarie's return in October 2009.

We look forward to organizing an education session for all administrative and management staff in the near future – given the geographical spread of hospitals and sites, we do encourage attendance at meetings and events that permeate the department at large and enjoy interaction at that level. In closing, I want to thank each of our administrative / management staff at the various sites and within our programs for their commitment to the UBC Department of Obstetrics and Gynaecology.

Respectfully submitted,

**Maureen Conlon, BScOT, MHA**  
**Director, UBC Department of Obstetrics and Gynaecology**

## **DIVISIONAL REPORTS**

### **Basic Science**

No Report Submitted

**Dan Rurak, PhD**  
***Head, Basic Science Division***

## **General Gynaecology & Obstetrics**

### **Our members**

Our Division has 32 members, 24 with full obstetrics and gynecology practices, 2 with obstetrics practice only and 6 with gynecology practices only. New to our Division are Doctors Susan Kim and Marketa Gogelar Spehar, who share one position at St-Paul's hospital. Doctor Roxana Geoffrion also joined the St.Paul's group and our division as Assistant Professor with a specialty in Female Pelvic Medicine and Reconstructive Surgery.

### **The Executive Committee**

The executive committee continues to meet monthly, with the exception of the summer months. The members are Doctor Nicole Racette (chair), Doctor Geoff Cundiff, Doctor Stephanie Fisher, Doctor Brian Fitzsimmons, Doctor Ellen Giesbrecht, Doctor Liz Joa and Doctor Henry Woo. Once approved, the minutes of each meeting are circulated to all the members of the Division to ensure ongoing communication.

### **Programs and Services-Update**

The Early Pregnancy Assessment Clinic (EPAC) continues to provide complete care for the women with first trimester of pregnancy problems (bleeding, pain, etc). This service is now available every day of the workweek. Doctor Stephanie Fisher joined the existing team led by Doctor Stephanie Rhone and composed of Doctors Dena Bloomenthal, Margo Fluker and Nicole Racette.

The Rapid Access Gynecology Clinic continues to operate at the Gordon and Leslie Diamond Health Care Centre. In January 2009, nursing support was added to improve in patient care and follow-up. All members of the gynecology call group at VGH participate in the supervision of residents and provide care at the clinic.

The urogynecology services are now concentrated at St.Paul's hospital, with Doctor David Wilkie, Doctor Geoff Cundiff and Doctor Roxanna Geoffrion on staff. In the near future, they are hoping to offer integrated services such as pessary fitting initiatives.

### **Call Groups**

All 3 hospitals have integrated call groups.

St.Paul's hospital has streamlined its call groups to include one in-house physician (obstetrics and gynecology) and one immediately available physician (gynecology) providing 24-hour call shifts together. At VGH, the call group continues to include members of the general gynecology and REI divisions and provides 24-hour call coverage. At BCWH, 2 members of the obstetrics call group are on call together, providing 12-hour shift coverage for consultative and primary care obstetrics.

### **Education**

The Female Pelvic Medicine and Reconstructive Surgery program is now offering a 2-month rotation for residents in PGY-3 at St.Paul's Hospital.

The fellowship program in Female Pelvic Medicine and Reconstructive Surgery has obtained a 2-year \$50,000 educational grant from Johnson & Johnson. The first fellow is Dr Kris Cvach. This fellowship is in collaboration with the Department of Urological Sciences. Since September 2008, PGY-1 residents are offered a Family Planning Rotation. Residents spend one month doing clinical and academic training in contraception and abortion care. During this month, the first year residents are able to do many pelvic exams, paracervical blocks, early pregnancy dating ultrasounds, and D&C's for therapeutic abortions. In addition, they participate in decision making counseling and contraceptive sessions. Eight residents participated fully in this first year of the program and it received excellent reviews at the Residency Education Committee. Residents feel that this rotation not only prepares and helps them in their other rotations, but sensitizes them to another aspect of women's health that many had not been exposed to. This initiative received a onetime grant of \$180,000 from the Ryan Residency Program based at UCSF. This has been used to purchase new ultrasound machines for the sites participating in the training, as well as other needed educational material and staff support. The EPAC clinic has also been associated with the Family Planning Rotation.

### **Continuing Surgical Education**

This committee has produced 2 excellent documents entitled "Model for Credentialing New Surgical Procedures" and "Model for Preceptor Program". The goal is to facilitate access, mentorship and support to our members for new procedures while maintaining the highest level of patient care and safety. As a large part of the gynecology surgery teaching is provided by the members of the general division, it is our ultimate goal to have all graduating residents trained in the most up-to-date surgical approaches.

### **Awards**

Dr Geoff Cundiff has received the Mike Turko surgical teaching award.

### **Research**

Many research projects are ongoing and involve many of our members at multiple sites. Some of those include the Twin Birth Study and the CHIPS Study.

### **Recruitment**

Doctor Ellen Giesbrecht was the successful applicant for the position of Head of Obstetrics at BCWH. We will be advertising to fill her previous clinical position in the fall of 2009. Doctors Susan Kim and Marketa Gogelar Spehar have joined the team of St.Paul's obstetrician-gynecologists, sharing the vacancy left by the departure of Doctor Paula Lott. The advertised position for a general obstetrician-gynecologist with advanced family practice skills will be filled in the summer of 2009.

### **Future Directions**

Our recruitment efforts will continue and new members will be joining in the next year to help with the provision of care in areas where patients have to wait the most. Priorities have been identified in the areas of lower genital tract and vulvovaginal diseases and sexual medicine. In addition, we will attempt to fill any vacancy from retirement or leave. The concept of the academic generalist will be further developed as we hope to recruit individuals with strong interest and skills in research and publications. With the mentorship opportunities in minimal invasive surgery now available at all sites, all our generalists will strive to offer the most up to date surgical choices to their patients while continuing to maintain the highest level of patient safety.

The members of the General Division continue to be committed to education and teaching, research, development of specialized programs in addition to the delivery of excellent patient care. Their ongoing

participation in many committees and activities of the Department makes our Division well positioned to lead the way into the many changes coming to us in the next year.

***Head, Division of Reproductive Endocrinology & Infertility***

## **Paediatric and Adolescent Gynaecology**

Paediatric and Adolescent Gynaecology is a “division” of the Department of Surgery of the BC Children’s Hospital. Official designation is undefined. Gynaecological services for children and adolescents are a responsibility of both Paediatrics and Adult Gynaecology and as such falls under the jurisdiction of both university departments.

### **Our Members**

A referral service for paediatric and adolescent gynaecology at BC Children’s Hospital is provided by Drs. Debra Millar and Ellen Giesbrecht. Both Dr. Millar and Dr. Geisbrecht are subspecialty trained and have been providing province-wide care through a subspecialty clinic at BC Children’s Hospital. Patients are referred most commonly by paediatricians throughout the province, as well as by other gynaecologists and primary care physicians. In addition, patients are also referred by colleagues in paediatric surgery and urology as well as medical subspecialties of paediatrics such as endocrinology, medical genetics and oncology.

### **Services**

Emergency coverage for the BC Children’s Hospital is largely covered by Drs. Millar and Giesbrecht but other members of the Division of General Gynaecology and Obstetrics also cover weekend call and holiday relief for the emergency room. Consult call for the hospital is also provided as a 24-hour service.

### **Education**

Residents in Obstetrics and Gynaecology are provided training in the subspecialty as a three-month rotation during their Reproductive Endocrinology & Infertility block. During this time, they attend a weekly referral clinic in Adolescent and Paediatric Gynaecology. They also participate in consultation and emergency call for the hospital with the attending subspecialist and attend both elective and emergency surgical lists. Elective rotations are provided to both visiting residents and medical students who have an interest in the subspecialty.

### **Multidisciplinary Activity**

Patients with gynaecologic concerns in adolescence and childhood often have multidisciplinary concerns. As such, both Drs. Millar and Giesbrecht participate on the Gender Assessment Committee at BC Children’s Hospital. This committee meets monthly and is a forum for multidisciplinary input for patients with medical concerns involving medical genetics, paediatric endocrinology, paediatric urology, gynaecology and psychiatry. Individual patient management is discussed at this committee, as well as regular subjects of continuing medical education.

We enjoy active involvement in NASPAG (North American Society for Paediatric and Adolescent Gynecology), as well as CANPAGO (Canadian Paediatric and Adolescent Gynaecologists and Obstetricians) – our representation to SOGC.

### **Challenges**

The health providers of gynaecologic medical care in children and adolescents recognize the importance of a strong input at the Children’s Hospital. We continue to build sound working relationships with our surgical colleagues in pediatric general surgery and pediatric urology.

Ongoing research activity in paediatric and adolescent gynecology is recognized as a need requiring attention. At present Dr. Millar and Dr. Geisbrecht are both involved in clinical research at a minimal

level. Dr. Millar is currently a co-investigator with colleagues at the Hospital for Sick Children evaluating adolescents using continuous combined oral contraceptives. We in the 'division' are actively recruiting to acquire a third gynecologist with subspecialty training who will bring research initiative to the group. There is an increasing volume of clinical activity in pediatric and adolescent gynecology with increasing wait times through the ambulatory referral clinics as well as a significant increase in the emergency services provided through BCCH in the last year. The pediatric and adolescent gynecology group at BCCH wish to look for future growth with a strong emphasis on developing clinical research given the volume of clinical activity here at BCCH.

Respectfully submitted,

**Debra Millar, MD, FRCSC**  
***Paediatric and Adolescent Gynaecology***

## **TEACHING PROGRAMS**

### **Undergraduate Education**

No Report Submitted

**Amanda Skoll, MD, FRCS**  
*Director, Undergraduate Education Program*  
*Department of Obstetrics & Gynaecology*

## **Residency Training Program**

The Residency program continues to be a vibrant and growing program of which we can all be proud. Highlights of the past academic year are as follows:

### **The PGY1 Year**

New PGY1's in July 2008 included Nadia Branco, Caitlin Dunne, Lise Gagnon, Vanessa Nicolau, Nicole Todd, Mina Wesa and Julie Wood. The popular simulation sessions at the Centre of Excellence in Surgical Education and Innovation (CESEI) at VGH, ably led by Jason Hitkari, were once again undertaken. In addition the program was expanded this year to include Obstetrical simulation sessions led by Aude Beauchamp from the Royal Columbia. Despite being based at all three PGY1 training sites (Victoria, St Paul's and Royal Columbian) the juniors made great efforts to attend their once a month academic time in Vancouver and enjoyed interacting with the rest of the residents in the program at Academic Half Day.

### **The PGY2 Year**

Janet Lyons, Andora Jackson, Andrea Massey, Jennifer Kozic, Sheona Mitchell, Grace Park, Christy Pylypjuk and Tin-Wing Yen rotated through the four PGY2 training sites, BCW, VGH, St. Paul's and Royal Columbian. The program is once again grateful to the dedicated rotation supervisors of the PGY2 year, Drs. Michelle Belanger, Henry Woo, Matt Garrey and Jag Uhbi.

### **The PGY3 Year**

Stephanie Johnson, Cheryl Wilson, Lauren Rogers, Devon Ambrose, Paul Yong and Hanna Ezzat rotated through the PGY3 rotations of Specialized Gyne, Maternal Fetal Medicine, REI, ultrasound and research. Sadly we lost Monica Fofie to the Family Practice Residency Program following her maternity leave. As much as we will miss her, we wish Monica well in her new career.

### **The PGY4 Year**

Jason Burrows, Rebeca Rivera, Jacqueline O'Connell, and Oisin Coll enjoyed the Community rotations in Kamloops, Nanaimo and Prince George despite the distance from family and friends. The Community rotation continues to be a highly valued part of the program. Gynecologic Oncology, electives, a final month of research rounded out the year prior to starting in as chief residents in the spring. Erin Adams took a leave of absence to pursue a Masters of Public Health through the London School of Hygiene and Tropical Medicine in the Reproductive and Sexual Health stream, a dream of hers since her PGY1 year.

### **The PGY5 Year**

Fariba Mohtashami, Genevieve Eastabrook, Kellie Whitehill, Carolyn Donnelly, Shannon Salvador, Salim Lalani, Darren Lazare, Samar Nahas and Marketa Gogela-Spehar accounted for our largest graduating class ever. Their success on the Royal College Fellowship examinations in the spring is a testament to the dedication and support of the entire Department. Thank you everyone for guiding these young people through a successful five years of training!

### **Academic Day**

The 2009 UBC Department of Obstetrics and Gynaecology Academic Day was held on March 12th. Resident presenters included Carolyn Donnelly, Genevieve Eastabrook, Kellie Whitehill, Marketa Gogela-Spehar and Darren Lazare. The Canadian Women's Health Foundation Best Resident Research Paper Award went to Dr. Genevieve Eastabrook. Marketa Gogela-Spehar was awarded the Best Resident

Research award presented by the UBC Department.

2009 teaching awards presented by the residents at the Academic Day Dinner went to Dr. Blair Butler who received the CREOG Teaching award and Dr. Geoffrey Cundiff who won the Mike Turko Award for Surgical Teaching.

### **Residents' Day**

Once again Residents Day has become a day of diverse activities enjoyed by all. Thanks to Dr. Rob Liston who graciously allowed us the use of his sailboat for the day out of Point Roberts. An enthusiastic group of kayakers paddled out of Deep Cove. Dr. Matthew Garrey led the revival of golfing back into our day's events. A very good time was had by all.

Resident award winners for this year were as follows: Dr. Carolyn Donnelly won the Hamilton Wadham Memorial Prize for demonstrating empathy and excellence in leadership; Dr. Fariba Mohtashami won the American Association of Gynecologic Laparoscopists Award for Special Excellence in Endoscopic Procedures; Dr. Salim Lalani won the Dr. Erle Mitchell Memorial Award for surgical skills and collegiality; Dr. Genevieve Eastabrook won the Dr. Ray Vaughan Award presented by the staff at St. Paul's Hospital for respect, humour and dedication to the specialty. 2009 saw a new award being presented, the Mona Kalyanpur Award for overall excellence in the performance of the UBC Obstetrics and Gynecology Residency Program. The inaugural award, presented by Dr. Kalyanpur herself, went to Dr. Marketa Gogela-Spehar. The award is the result of a bequest to Mona from a patient and we are pleased that Mona was present to inform us of where the funding came from and what it is meant to signify in a resident in our program.

Thank you all for coming out and joining us in our celebration and thank you to the residents for all the work they do for us!

The program was sorry to see Ms Jennifer Wilson leave as Jen had made herself indispensable in the administration of the program as an assistant to Mr. Scott Lewis. Jennifer had the opportunity to relocate back to California and we wish her the best in her new life back home.

The program would not continue to function if it weren't for the dedication and work of Mr. Scott Lewis, without whom none of us would know where to begin to keep us all on track and on budget and motoring along from year to year. Once again thanks for all you do for the residents and the faculty Scott.

Respectfully submitted,

**Nancy Kent, MD, FRCSC, Med  
Residency Program Director  
Department of Obstetrics and Gynaecology**

## **Gynaecologic Oncology Fellowship Program**

No Report Submitted

**Mark Heywood, MD, FRCSC**  
*Program Director*  
*Gynaecologic Oncology Fellowship Program*

## **Maternal Fetal Medicine Fellowship Program**

The University of British Columbia's Subspecialty Training Program in Maternal Fetal Medicine is a two-year fellowship that follows completion of the Royal College Fellowship in Obstetrics and Gynaecology. It is recognized by the Royal College of Physicians and Surgeons of Canada. The program remains one of the most successful in Canada and continues to attract both Canadians and foreign trained physicians. We have up to three fellowship positions at any given time and funding is typically available for North American graduates who reside in Canada. The program accepts new trainees on a yearly basis, alternating between one and two new fellows each year. An optional third year for research and/or development of specialized skills is available at certain times.

The 2008-2009 academic year was marked by a change in leadership. Dr. Alain Gagnon stepped down to pursue other challenges, and was replaced by me in February of 2009. This did not lead to any significant changes in the program, which had successfully received full accreditation from the Royal College just one year before.

The teaching sessions have continued on a weekly basis. They include a variety of topics and learning methods, including informal case discussion, didactic presentation, online workshops and computer based modules. Many members of the Division, as well as members of other specialties within and outside the Department of Obstetrics and Gynaecology have contributed to the success of the teaching sessions. They are extremely well received by the fellows, along with many attendings within the division who keep their knowledge up to date through this forum.

The rotation at the Surrey Memorial Hospital Maternal-Fetal Medicine Unit continues to expand as perinatal services in that centre expand. Fellows appreciate the opportunity to experience the practice of MFM in a slightly different model, while still being part of the UBC team. Fellows also continue to attend the obstetrical maternal cardiac disorder clinic at St. Paul's on a monthly basis.

Over the course of this academic year, Dr Chantal Mayer completed her MFM training, the first fellow to complete her program on a part-time basis. She subsequently moved into a staff position with the division. Dr. Beth Waterman started her fellowship in September of 2007, and will complete her two years of training, including work on her Masters in Medical Education (with an emphasis on Knowledge Translation) in December of 2009.

Ongoing challenges with funding continue to exist within the fellowship program. Although there is sufficient clinical material and educational opportunity for more trainees, positions are limited by the availability of funding from the Ministry of Health through the Postgraduate Education office. It is difficult not to be able to accommodate all of the superb candidate who would like to pursue subspecialty MFM training in the program.

In summary, the fellowship program continues to be active and dynamic, responding to the changing requirements of the practice and enhancing the learning experience. It allows the trainees to develop the multiple aspects required to practice Maternal Fetal Medicine in an academic setting. It is a great pleasure for us to be able to participate in this development under the umbrella of the Provincial Health Services Authority, Children's & Women's Health Centre of British Columbia, the University of British Columbia and the Royal College of Physicians and Surgeons of Canada.

**Sheila Pride, BSc, MD, FRCSC**  
***Program Director***  
***Reproductive Endocrinology & Infertility Fellowship Program***

## **REPRODUCTIVE AND DEVELOPMENTAL SCIENCES PROGRAM**

The Reproductive and Developmental Sciences program has 20 Full Members and eight Associate Members.

The following is a breakdown of the trainees in the program:

PhD	-	16 trainees
MSc	-	11 trainees
PDF	-	4 trainees
Visiting Scholars	-	4 trainees

The following visiting scientists/scholars presented at the RDS seminars which consists of all the graduate students, visiting scholars, postdoctoral fellows, research technicians and faculty members:

Dr. Hajime Oishi (Postdoctoral Fellow, Department of Obstetrics & Gynaecology), Tokyo University, Japan

*"Identification and functional analysis of novel nuclear complex bridging BRCA1 and estrogen receptor alpha"*

Dr. Yung-ming Lin, Associate Professor, Department of Urology, National Cheng Gung University, Taiwan

*"The role of sex determining gene FGF9 in male infertility"*

Dr. Daniel Wu, Visiting Postdoctoral Fellow, Chang-Gung University, Department of Obstetrics & Gynaecology, Taiwan

*"Endometrium and endometriosis: The role of steroid and peptide hormones"*

Dr. Haiyan Lin (Postdoctoral Fellow, Department of Obstetrics & Gynaecology), Institute of Zoology, Chinese Academy of Sciences

*"The structure and expression of corticosteroid binding globulin"*

There were also special seminar sessions from invited speakers who gave talks to the graduate students, postdoctoral fellows, research technicians and faculty members as listed below:

August 15, 2007

*Professor David Armstrong, University of Adelaide, Dept. of Obstetrics and Gynaecology, Australia, "Utero-ovarian signaling: a new concept in follicle paracrine regulation?"*

October 22, 2007

*Professor Yan-ling Wang, Institute of Zoology, Chinese Academy of Sciences, Beijing, China, "Influence of MMP-26 on cell invasion and its modulation by GnRHs in human trophoblast cells".*

October 25, 2007

*Professor Jacques Donnez, Dept. of Obstetrics and Gynaecology, Universite Catholique de Louvain, Brussels, Belgium, "Preservation of fertility in women: ovarian tissue cryopreservation and transplantation".*

December 21, 2007

*Professor Benjamin Tsang, Dept. of Obstetrics and Gynaecology and Cellular & Molecular Medicine, University of Ottawa, "Chemoresistant ovarian cancer: Dysregulation of Cisplatin-induced, p53-dependent FLIP Ubiquitination by Akt".*

April 9, 2008

*Professor Eu Leong Yong, Dept. of Obstetrics and Gynaecology, National University of Singapore, "Nuclear receptors: Master switches for food, sex & drugs".*

May 16, 2008

*Ms. Julie Shaw (PhD Candidate), Dept. of Laboratory Medicine & Pathobiology, University of Toronto, Mount Sinai Hospital, "Expression hormonal regulation and physiological functions of human tissue Kallikrein-related peptidases during the menstrual cycle".*

### **Awards**

*Dr. Genevieve Eastabrook – MSc candidate – STIRRHS bursary, \$9,000 per annum; Department portion \$9,000 per annum – total of \$18,000 pa.*

*Mr. Gordon Kirkpatrick – MSc candidate – NSERC PGSM stipend, \$17,300 per annum.*

*Mr. Bo Peng – MSc candidate – International Partial Tuition Waiver. CIHR: IWRHTP Graduate Studentship, \$17,850 per annum.*

*Ms. Manoja Pretheeban – MSc candidate – International Partial Tuition Waiver.*

*Dr. Tuan-Anh Thi Nguyen – MSc candidate – Ministry of Education Award, Vietnam.*

*Dr. Junling Chen – PhD candidate – PhD Tuition Award. STIRRHS Bursary - \$9,000; Dept. portion \$9,000 – \$18,000 per annum.*

*Mr. Jung-chien Cheng – PhD candidate – PhD Tuition Award. CIHR: IWRHTP Graduate studentship, \$17,850 per annum.*

*Mr. Eui-ju Hong – PhD candidate – PhD Tuition Award. CFRI Studentship, \$20,000 per annum.*

*Mr. In Sun Hong – PhD candidate – PhD Tuition Award. CIHR: IWRHTP Graduate Studentship, \$17,850 per annum.*

*Mr. Man Tat Lau – PhD candidate – PHD Tuition Award. CIHR: IWRHTP Graduate Studentship, \$17,850 per annum.*

*Ms. Agata Minor – PhD candidate – PhD Tuition Award. NSERC PGSD2 stipend, \$21,000 per annum.*

*Mr. York Hunt Ng – PhD candidate – PhD Tuition Award. CFRI Studentship, \$20,000 per annum.*

*Ms. Song Ling Poon – PhD candidate – PhD Tuition Award. CIHR: IWRHTP Graduate Studentship, \$20,850 per annum.*

*Mr. Fengtao Shi – PhD candidate – PhD Tuition Award.*

*Mr. Wai Kin So – PhD candidate – PhD Tuition Award. CIHR: IWHTP Graduate Studentship, \$17,850 per annum.*

*Ms. Jiadi Wen – PhD candidate – PhD Tuition Award. CIHR Doctoral Research Award stipend, \$21,000 per annum.*

*Ms. Fang Xie – PhD candidate* – PhD Tuition Award. MSFHR Senior Graduate Studentship, \$20,000 per annum.

*Ms. Junxuan Zou – PhD candidate* – PhD Tuition Award. CIHR: IWRHTP Graduate Studentship, \$17,850 per annum.

Brotto Fontana, Lori A.	Principal investigator	CIHR	2006-2009	\$150,000	Exploring the relationship between androgens, interpersonal factors, and sexual health in aging women
Brotto Fontana, Lori A.	Principal investigator	CIHR	2006-2010	\$200,000	Advanced ovarian cancer and sexuality

Brotto Fontana, Lori A.	Principal investigator	BC Medical Services Foundation	2007-2012	\$50,000	Group psycho-educational treatment for women with sexual arousal and desire difficulties
Brotto Fontana, Lori A.	Principal investigator	BCCA Grant Proposal Development Seed Funding	2008-2008	\$6,000	Reproductive health behaviours, sexuality, and acculturation: Decreasing disparities in Chinese women in BC
Brotto Fontana, Lori A.	Principal investigator	Canadian Pain Society	2008-2008	\$1,250	Physician outreach and education about vulvodynia and the new Multi-disciplinary Vulvodynia Program (MVP)
Brotto Fontana, Lori A.	Principal investigator	Foundation for the Scientific Study of Sexuality, Grant-in-Aid Program	2008-2009	\$1,000	Exploring acculturation and attitudes in Chinese women's reproductive health behaviours
Brotto Fontana, Lori A.	Principal investigator	BC Medical Services Foundation	2008-2010	\$43,478	Chatter around the HPV vaccine: Update on BC women's knowledge, attitudes, and beliefs regarding the human papillomavirus
Brotto Fontana, Lori A.	Principal investigator	Leslie Diamond Foundation	2008-2011	\$300,000	Ending Unvoiced Pain: A comprehensive, multidisciplinary program for women's genital pain
Brotto Fontana, Lori A.	Principal investigator	Women's Health Research Institute Catalyst Grant	2009-2010	\$25,000	The IMPROVED study: Integrated Mindfulness for Provoked Vestibulodynia

Brotto Fontana, Lori A.	Co-investigator	William G. Fraser Rehabilitation Research Award	2009-2010	\$15,000	A psycho-educational intervention targeting sexual function and body image in women with disability
Brotto Fontana, Lori A.	Principal investigator	Hampton Research Fund Endowment	2009-2011	\$30,000	Sex, memory, and culture
Ehlen, Thomas	Co-investigator	CIHR	2007-2014	\$6,268,935	A randomized controlled evaluation of HPV testing for cervical cancer screening
Ehlen, Thomas	Co-investigator	National Cancer Institute of Canada	- present	\$1,400 per patient	An international multicentre randomized phase III study comparing upfront debulking surgery versus neo-adjuvant chemotherapy in patients with stage IIIc or IV epithelial ovarian carcinoma
Ehlen, Thomas	Co-investigator	National Cancer Institute of Canada	- present		A phase III randomized study of Cisplatin alone versus a combination of etoposide, ifofamide, and cisplating (VIP) in the treatment of persistent, recurrent or advanced squamous or adnosquamous cell carcinoma of the cervix (NCIC CX3

Ehlen, Thomas	Co-investigator	National Cancer Institute of Canada	- present	\$1,400 per patient	International randomized phase III trial of Paclitaxel/ Epirubicin/Carboplatin (TEC) versus Paclitaxel/ Carboplatin (TC) in the initial treatment of women with advanced ovarian cancer
Ehlen, Thomas	Co-investigator	Ampersand Medical Inc.	- present	\$200 per patient	Clinical evaluation of InPath SBT system for adjunctive screening of cervical cytology specimens
Ehlen, Thomas	Co-investigator	Ontario Clinical Oncology Group	- present	\$750 per patient	Randomized trial of immediate treatment versus follow up of biopsy proven CIN I
Ehlen, Thomas	Co-investigator	Knoll/BASF	- present	\$7,000 per patient	A Phase II study to determine the efficacy and safety of ELINAFIDE as salvage therapy for patients with advanced carcinoma of the ovary
Ehlen, Thomas	Co-investigator	National Cancer Institute of Canada	- present	\$4,000 per patient	A comparison between BAY 12-9566 and placebo as consolidation after standard chemotherapy in patients with epithelial ovarian cancer
Ehlen, Thomas	Co-investigator		- present		A phase II multi-centre non-randomized study of taxol in patients with ovarian cancer previously treated with platinum therapy

Ehlen, Thomas	Co-investigator	National Cancer Institute of Canada	- present	\$1,300 per patient	NCIC randomized phase II study of two schedules of topotecan in previously treated patients with ovarian cancer
Heywood, Mark	Principal investigator	Schering	- present		Caelyx and carboplatin in relapsed ovarian cancer
Heywood, Mark	Principal investigator	Glaxo Smith Kline	- present		Topotecan and cisplatin in relapsed squamous cervix
Heywood, Mark	Principal investigator	National Cancer Institute of Canada	- present		Cisplatin/topotecan/ carbo/taxol vs taxol/carbo for advanced ovarian cancer
Heywood, Mark	Principal investigator	National Cancer Institute of Canada	- present		Upfront debulking vs upfront chemotherapy for ovarian cancer
Heywood, Mark	Principal investigator	Cancer Care Manitoba	- present		Local pilot study of IFN-alpha and Tamoxifen in resistant
Heywood, Mark	Principal investigator	National Cancer Institute of Canada	- present		Advanced ovarian cancer and sexuality: Development of a psychoeducational intervention to reduce distress
Heywood, Mark	Principal investigator	Canadian Institute of Health Research	- present		Advanced ovarian cancer and sexuality: Development of a psycho-educational intervention to reduce distress
Heywood, Mark	Principal investigator	National Cancer Institute of Canada	- present		Efficacy of psycho-educational and Zextra for sexual dysfunction after radiation therapy

Kwon, Janice S.	Principal investigator	CIHR	2006-2010		Team Grant for "Cancer surgery in Ontario: Quality and access" with University Health Network, Juravinski Cancer Center, Sunnybrook and Women's College Hospital, and Cancer Care Ontario
Kwon, Janice S.	Co-investigator	Cancer Care Ontario Research Network	2007-2008	\$89,000	Ontario Cancer Surgery Atlas
Kwon, Janice S.	Principal investigator	Lower Mainland Innovation and Integration Fund	1905-1905	\$86,660	Optimizing surgical treatment for endometrial cancer in the Vancouver Coastal Health and Fraser Valley Health regions
McAlpine, Jessica	Principal investigator	Merck (US-Investigator Initiated Research Program)	- present	\$32,000	The Impact of Bisphosphonates on bone loss in patients undergoing surgery and post-operative chemotherapy for gynecologic malignancies
McAlpine, Jessica	Principal investigator	Vancouver Coastal Health Research Institute In It For Life Mentored Clinical Scientist Award	2008-2008	\$50,000	PARP inhibitors in epithelial ovarian cancer: targeted molecular therapy in BRCA null phenotypes and mechanisms of resistance
McAlpine, Jessica	Principal investigator	Ovarian Cancer Canada	2008-2008	\$30,000	Ovarian Cancer Early Screening project (OCESP): Lower genital tract secretions for early screening of pelvic epithelial cancers

McAlpine, Jessica	Principal investigator	Genzyme Biosurgery	1905 -	\$22,000	Sepralfilm™ for the prevention of intraperitoneal adhesions and improved deliver of therapy in women undergoing surgical staging and intraperitoneal chemotherapy for advanced ovarian cancer (Investigator Sponsored Trial)
Miller, Dianne M.	Co-investigator	NCIC	2007-present	\$1,300 per patient	NCIC randomized phase II study of two schedules of topotecan in previously treated patients with ovarian cancer
Miller, Dianne M.	Co-investigator	NIH	- present	\$639,670	A phase II clinical trial of anethol-trithione (sialor) in smokers with dysplasia of the bronchial epithelium
Miller, Dianne M.	Co-investigator	Merck Frosst Canada Ltd.	2007-2011	\$952,000	A randomized, international, double-blinded (with in-house blinding), controlled with Gardasil, dose ranging, tolerability, immunogenicity and efficacy study of a multivalent human papillomavirus (HPV) L1 virus-like particle (VLP) vaccine administered to 16-21 year old women
Sadownik, Leslie	Principal investigator	AIME Educational Research	2008-2008	\$21,875	Completing a Quality ITER. Can we influence the demonstrated skills of clinical supervisors

Stuart, Gavin	Principal investigator	Merck Frosst Canada Ltd.	2007-2011	\$42,950	A randomized, double-blinded, tolerability and immunogenicity study of a multi-valent Human Papillomavirus (HPV) L1 Virus-like Particle (VPL) vaccine (V504) administered concomitantly with Gardasi™ to 16-26 year old women
Stuart, Gavin	Principal investigator	Merck Frosst Canada Ltd.	2007-2011	\$2,466,050	A randomized, international, double-blinded (with in-house blinding), controlled with Gardasil, dose ranging, tolerability, immunogenicity and efficacy study of a multivalent human papillomavirus (HPV) L1 virus-like particle (VLP) vaccine administered to 16-26 year old women
Stuart, Gavin	Principal investigator	CIHR Operating Grant	2007-2013	\$9,181,750	A randomized controlled evaluation of HPV testing for cervical cancer
Stuart, Gavin	Principal investigator	CIHR Operating Grant	2008-2013	\$342,058	A study of HPV-VLP Vaccine in a cohort of HIV positive girls and women

<b>Maternal Fetal Medicine</b>					
Butler, Blair	Principal investigator	BC Children's Hospital	2007-2009	\$19,645	Ultrasound measurements of utero-placental blood flow as predictors of adverse maternal and fetal perinatal outcomes related to pre-eclampsia
Butler, Blair	Principal investigator	University of British Columbia, Faculty of Medicine	2009-2010	\$99,909	"Metagenomic characterization of the human vaginal microbiome"
Butler, Blair	Principal investigator	March of Dimes Foundation	2009-2012	\$324,423	A novel strategy to reduce morbidity associated with preterm birth: Metagenomic profiles of vaginal microbiota as predictors of neonatal outcomes following preterm premature rupture of the membranes
Delisle, Marie-France	Co-investigator	NIH	1999-present	\$100,000	Asymptomatic HSV Infection in Pregnancy
Delisle, Marie-France	Co-investigator	CIHR	2000-2008	\$845 per patient	Multiple Courses of Antenatal Corticosteroids for Preterm Birth Study (MACS)
Delisle, Marie-France	Principal investigator	CIHR	2006-2010	\$225 per patient	Multiple Courses of Antenatal Corticosteroids for Preterm Birth Study: 5 Year Follow-up (MACS-5)
Farquharson, Duncan F.	Co-investigator	CIHR	2007-2008	\$97,673	Harmonizing evidence with consumer expectations, interdisciplinary knowledge and organizational matrixes to attain optimal mode of birth patterns

Gagnon, Alain L.	Principal investigator	BCCH Foundation Telethon Competition	2007-2009	\$21,382	Screening for viral and other infectious causes of fetal anomalies: A pilot study
Gagnon, Alain L.	Co-investigator	CIHR	2007-2009	\$950 per subject	Twin Birth Study
Kent, Nancy	Principal Investigator	University of British Columbia	2008-2008		Ranking approaches to effective PBL tutoring
Lim, Kenneth I.	Co-investigator	BCCH Research Foundation	2002-present	\$42,000	Perinatal Research Fund
Lim, Kenneth I.	Co-investigator	CIHR	2003-2009	\$1,788,650	Interdisciplinary Women's Reproductive Health Research Training Program
Liston, Robert M.	Co-investigator	CIHR	2005-2008	\$778,000	Birth under 29 weeks: Improving outcomes for mothers and babies
Liston, Robert M.	Co-investigator	CIHR	2006-2010	\$135,900	Determining the attitudes of women and maternity care providers toward birth: Conflict, confusion, and concordance
Liston, Robert M.	Principal investigator	CIHR	2007-2010	\$116,667	Socioeconomic status and perinatal health
Liston, Robert M.	Principal investigator	CIHR	2009-2013	\$800,000	Trainees in maternity care: what do they believe about birth and how do they select their profession?

Money, Deborah M.	Co-investigator		1995 - present		Prospective study of HIV infected pregnant women: obstetrical virologic and neonatal outcomes with multidisciplinary care.
Money, Deborah M.	Co-investigator	CANFAR/BC CFE	1998 - present	\$20,000	Changes in HIV plasma and genital tract viral load through the menstrual cycle
Money, Deborah M.	Co-investigator	NIH	2003-2008	\$75,000	Prevention of HSV morbidity in pregnancy
Money, Deborah M.	Principal investigator	CIHR	2006-2009	\$279,414	Mitochondrial DNA damage in infants exposed to HIV antiretroviral drugs in utero
Money, Deborah M.	Principal investigator	CIHR	2006-2009	\$279,414	Baby mtDNA (operating equipment)
Money, Deborah M.	Principal investigator	MSFHR	2006- 2010	\$799,156	Vaccine Evaluation Centre: Research Unit Award
Money, Deborah M.	Principal investigator	GSK	2006-present	\$196,056	Phase III DB, R, C, safety, efficacy and immunogenicity of HPV
Money, Deborah M.	Principal investigator	MSFHR	2007-2009	\$22,500	Perinatal outcomes in a provincial based cohort of HIV positive mother-infant pairs
Money, Deborah M.	Principal investigator	MSFHR	2007-2011	\$1,660,000	A controlled trial to assess the immunogenicity of a proposed paediatric dosing schedule of human papillomavirus vaccine (4 years)
Money, Deborah M.	Principal investigator	CIHR	2007-2012	\$485,586	Mechanism of aging following exposure to HIV antiretroviral drugs

Money, Deborah M.	Principal investigator	BCMSF	2008-2009	\$43,478	Chatter around the HPV vaccine: Update on BC women's knowledge, attitudes and beliefs regarding the human papillomavirus
Money, Deborah M.	Principal investigator	WHRI	2008-2009	\$25,000	Clinical abortion research team
Money, Deborah M.	Principal investigator	CTN Post-Doctoral Fellowship Award	2008-2009	\$50,000	HAART related mitochondrial toxicity in human placenta
Money, Deborah M.	Principal investigator	Merck & Co.	2008-2012	\$65,000	A randomized, international, double blinded trial, controlled with GARDASIL
Money, Deborah M.	Principal investigator	CIHR	2008-2013	\$277,809	A study of an HPV VLP vaccine in a cohort of HIV positive girls and women
Money, Deborah M.	Principal investigator	Vancouver Foundation	2008-2009	\$109,300	Understanding factors influencing parental decisions to have daughters receive the HPV vaccine in British Columbia
Money, Deborah M.	Principal investigator	CANFAR	2008-2010	\$80,000	Canadian physician attitudes regarding pregnancy, fertility care and assisted reproductive technologies for HIV positive individuals or couples
Money, Deborah M.	Principal investigator	CANFAR	2008-2010	\$80,000	Placental mitochondrial toxicity of HIV therapy during pregnancy: clinical tool development and exploration of outcome variables for clinical trials

Money, Deborah M.	Principal investigator	CIHR	2009-2010	\$99,999	Metagenomic characterization of the human vaginal microbiome
Money, Deborah M.	Principal investigator	CIHR	2009-2011	\$50,000	A secondary analysis of perinatal complications and infant outcomes in first nations people in BC
Money, Deborah M.	Principal investigator	CIHR	2009-2015	\$1,950,000	Interdisciplinary women's reproductive health research training
Money, Deborah M.	Principal investigator	CANFAR	-present	\$25,000	Investigating the impact of Highly Active Antiretroviral Therapy (HAART) on sexual and reproductive behaviors and fertility among HIV-positive women in South Africa
Money, Deborah M.	Principal investigator	MSFHR	-present	\$35,000	Collaborative research group for the study of human vaginal microbiota in health and disease
Money, Deborah M.	Co-investigator	BC Children's Hospital Telethon	-present	\$34,118	Detection of congenital CMV infection in children at risk of developing late onset hearing loss
Shaw, Dorothy	Principal investigator	Anonymous Foundation	2007-2010	\$3,940,000	Prevention of unsafe abortion in FIGO member countries
Skoll, M. Amanda	Co-investigator	CIHR	2003-2009	\$1,788,650	Interdisciplinary women's health reproductive health research training program
Skoll, M. Amanda	Co-investigator	CIHR	1905-1905	\$181,467	Placental insufficiency and aortic isthmus flow (PIAF)

Skoll, M. Amanda	Co-investigator	Sequenon	1905-1905		Non-invasive test for fetal genotyping
Skoll, M. Amanda	Co-investigator		-present	\$15,000	Suivi prospectif des foetus et nouveau-nés avec hernie diaphragmatique
von Dadelszen, Peter	Principal investigator	CIHR – Training Grant	2003-2009	\$300,000	Reproductive Health Training Grant
von Dadelszen, Peter	Principal investigator	CIHR – Operating Grant	2004-2009	\$776,000	CAPSNet (Canadian Pediatric Surgical Network)
von Dadelszen, Peter	Principal investigator	CFRI – Investigator Award	2004-2012	\$135,000	Pre-eclampsia: From mechanism to modification
von Dadelszen, Peter	Principal investigator	CIHR – Operating Grant	2005-2010	\$98,072	Birth under 29 weeks: Improving outcomes for mothers and babies
von Dadelszen, Peter	Principal investigator	CIHR – Operating Grant	2005-2010	\$137,137	Prenatally detected chromosome mosaicism
von Dadelszen, Peter	Principal investigator	CIHR – New Investigator Award	2005-2010	\$50,000	PIERS (Pre-eclampsia Integrated Estimate of RiSk model)
von Dadelszen, Peter	Co-investigator	Association of Professors of Gynaecology and Obstetrics of Canada STIRRHS	2006-2008	\$100,000	The role of decidual natural killer cells in trophoblast invasion
von Dadelszen, Peter	Principal investigator	CIHR – Genomic Medicine and Human Development Operating Grant	2006-2011	\$291,450	Epigenetics and human reproductive health
von Dadelszen, Peter	Principal investigator	MSFHR – Investigator Award – Senior Scholar	2006-2011	\$100,000	Pre-eclampsia: immunology, innovation, and improvement

von Dadelszen, Peter	Principal investigator	CIHR – Randomized Controlled Trials	2006-2011	\$469,959	TIPPS (The Thrombophilia in pregnancy prophylaxis study)
von Dadelszen, Peter	Site Co-investigator	AllerGen Canada	2006-2011	\$1,457,250	A pilot study for a proposed Canadian healthy infant longitudinal development study- miniCHILD
von Dadelszen, Peter	Principal investigator	CIHR – Operating Grant	2006-2012	\$633,524	MIREC (Maternal Infant Research on Environment Chemicals)
von Dadelszen, Peter	Principal investigator	BCRI C&W	2007-2008	\$41,700	Placental adhesion molecules
von Dadelszen, Peter	Principal investigator	CIHR	2007-2008	\$41,700	Canadian Perinatal Network
von Dadelszen, Peter	Principal investigator	CIHR/WHO – Operating Grant	2007-2009	\$250,000	Survey of mode of delivery and maternal and perinatal outcomes across Canada
von Dadelszen, Peter	Principal investigator	CFRI – 2007 Telethon Awards Competition	2007-2009	\$9,823	Ultrasound measurement of utero-placental blood flow as predictors of adverse maternal and fetal perinatal outcomes related to pre-eclampsia
von Dadelszen, Peter	Principal investigator	CIHR – Operating Grant	2007-2010	\$258,165	PIERS (Pre-eclampsia Integrated Estimate of RiSk for mothers): validation across conditions and clinical settings

von Dadelszen, Peter	Principal investigator	WHO (World Bank Special Programme of Research, Development & Research in Training in Human Reproduction	2007-2010	\$252,880	miniPIERS (Pre-eclampsia Integrated Evaluation of Risk Score)
von Dadelszen, Peter	Principal investigator	CIHR – Meeting Planning & Dissemination Grant: Human Development	2008-2009	\$10,000	MiniPIERS (Pre-eclampsia Integrated Estimate of RiSk for the mothers in LMIC): the implementation
von Dadelszen, Peter	Principal investigator	The Rockefeller Foundation – Bellagio Meetings	2008-2009	\$50,000	The miniPIERS implementation study planning meeting
von Dadelszen, Peter	Principal investigator	WHO-UNDP/ UNFPA/WHO World Bank Special Programme on Research Development	2008-2010	\$126,440	PIERS (Pre-eclampsia Integrated Estimate of RiSk for mothers): validation across conditions and clinical settings
von Dadelszen, Peter	Principal investigator	Eli Lilly & Co Investigator initiated unrestricted grant-in-aid	2008-2010	\$120,000	Safety and efficiency trial of recombinant human activated protein C in severe pre-eclampsia
von Dadelszen, Peter	Principal investigator	CIHR	2008-2013	\$893,000	CHIPS (Control of Hypertension in Pregnancy Study)
von Dadelszen, Peter	Principal investigator	IDRC	2008-2009	\$150,000	PIERS (Pre-eclampsia integrated estimate of risk for mothers)

<b><u>Reproductive Endocrinology &amp; Infertility</u></b>					
Cheung, Anthony	Principal Investigator	Serono Canada Inc.	2009-2010	\$40,000	A multinational, multicentre, exploratory pharmacogenomics trial to test the importance of identified genetic marker, and potentially identify new markers of various ovarian responses to GONAL F treatment
Cheung, Anthony	Principal Investigator	CIHR	2009-2009	\$10,000	Environmental factors on human fertility and reproductive outcomes
Cheung, Anthony	Principal Investigator	Women's Health Research Institute	2009-2010	\$25,000	Non-invasive assessment of embryo quality in human in vitro fertilization: metabolomic profiling of embryo culture media with Raman spectroscopy
Fluker, Margo R.	Principal investigator	Royal University Hospital Foundation, Saskatoon	2006-2009	\$50,000	Synchronization of follicle wave emergence and ovarian stimulation therapy in women with a poor ovarian response to treatment

McComb, Peter F.	Principal investigator		2007	Non-funded	The influence of bowel activity on fertility
Ma, Sai	Co-investigator	CIHR	2003-2009	\$1,788,650	Interdisciplinary Women's Reproductive Health Research Training Program
Ma, Sai	Principal investigator	CIHR	2005-2009	\$83,697	Study of chromosomal abnormalities and their origin in pregnancies derived from assisted reproductive technologies (ART)
Ma, Sai	Principal Investigator	CIHR	2005-2009	\$334,788	Study of chromosomal abnormalities and their origin in pregnancies derived from assisted reproductive technologies (ART)
Ma, Sai	Principal Investigator	CIHR	2008-2009	\$100,000	Investigation of meiotic defects as an underlying cause of male infertility

## **Conference Proceedings**

### **Refereed Publications**

#### ***Dansereau, Dr. Jerome***

- Caesarean Birth in British Columbia panel: "Consensus Conference Statement" British Columbia Perinatal Health Program. Caesarean Birth Task Force Report 2008. Vancouver, BC. February 2008.
- **Dansereau J**, Desjardins PR, Hoag GN. "Comparison between Fetal Fibronectin and Actim Partus (pIGFBP-1) in the prediction of preterm delivery". SOGC 64th Annual Clinical Meeting, Calgary AB, June 2008.
- Desjardins PR, **Dansereau J**, Hoag GN. "Comparing the clinical effectiveness of Fetal Fibronectin and IGFBP-1 measurements in cervico-vaginal secretions, in predicting preterm deliveries". American Association of Clinical Chemistry (AACC 2008), Washington DC, July 2008.

**Money, Dr. Deborah M.**

- Xie F, Hu Y, Magee L, **Money D**, Patrick D, Thomas E, von Dadelszen P. Chlamydia Pneumoniae Infection in Preeclampsia 36th Annual Scientific Meeting Infectious Diseases Society for Obstetrics and Gynecology, Montreal, Quebec, Canada. August 2009 (poster presentation).
- **Money D**, Maan E, Chaworth-Musters T, Gadawski I, van Schalkwyk J, Forbes J, Cote H, The HIV Perinatal Study Group. Mitochondrial DNA levels in pregnancy are not decreased in antiretroviral treated women compared to HIV negative controls. 16th Conference on Retroviruses and Opportunistic Infections. Montreal, Canada. February 9-11, 2009.
- van Schalkwyk J, Maan E, Chaworth-Musters T, Burdge D, Forbes J, **Money D**. Non-nevirapine, Non-nelfinavir HAART in pregnancy: A case series. 18th Annual Canadian Conference on HIV/AIDS Research. Vancouver, BC. April 23-26, 2009.
- **Money D**, van Schalkwyk J, Maan E, Chaworth-Musters T, Wagner E, Tsang G, Burdge D, Alimenti A, Forbes J. Impact of antiretroviral therapy on virologic suppression at delivery in HAART treated pregnant women. 18th Annual Canadian Conference on HIV/AIDS Research. Vancouver, BC. April 23-26, 2009.
- Kaida A, Forrest J, **Money D**, Burdge D, Forbes J, Fernandes K, Milan D, Hogg R. Antiretroviral adherence during pregnancy and postpartum among HIV-positive women enrolled in the Drug Treatment Program in British Columbia, Canada. 18th Annual Canadian Conference on HIV/AIDS Research. Vancouver, BC. April 23-26, 2009.
- Kaida A, Laher F, Hogg R, **Money D**, Gray G. Contraceptive use among HIV-positive women in Soweto, South Africa: The influence of expanding access to HAART. 18th Annual Canadian Conference on HIV/AIDS Research. Vancouver, BC. April 23-26, 2009.
- Kaida A, Laher F, Hogg R, **Money D**, Gray G. Fertility desires of women living with HIV in Soweto, South Africa: Is HAART influencing fertility decision-making? 18th Annual Canadian Conference on HIV/AIDS Research. Vancouver, BC. April 23-26, 2009.

**Von Dadelszen, Dr. Peter**

- Dahlgren L, Lisonkova S, **von Dadelszen P**, Barney L, Arbour L, Liston R. The confounding influence of domicile and ethnicity on infant mortality. SMFM 29th Annual Meeting, San Diego, CA, Jan 2009 (poster presentation (LD)). Am J Obstet Gynecol 2008; 199(6A): S53.
- Lim K, Lee B, **von Dadelszen P**. SMFM 29th Annual Meeting, San Diego, CA, Jan 2009 (poster presentation (KL)). Am J Obstet Gynecol 2008; 199(6A): S184.
- Thornton C, **von Dadelszen P**, Makris A, Tooher J, Ogle R, Hennessy A. Acute pulmonary oedema as a complication of hypertension during pregnancy: the use of individual patient data to ascertain rates and associated factors. ISSHP 16th World Congress, Washington DC, Sept 2008 (poster presentation (CT)).
- **von Dadelszen P**, Menzies J, for the PIERS study group. The PIERS (Pre-eclampsia Integrated Estimate of RiSk) models: fullPIERS. ISSHP 16th World Congress, Washington DC, Sept 2008 (oral presentation (PvD)).
- Magee LA, for the CHIPS study group. The CHIPS trial (Control of Hypertension In Pregnancy Study). ISSHP 16th World Congress, Washington DC, Sept 2008 (poster presentation (LAM)).
- Magee LA, Massey K, Ansermino M, **von Dadelszen P**, Morris T, Liston R, on behalf of the CPN collaborators. What is SNOMED CT® and why should the ISSHP care? ISSHP 16th World Congress, Washington DC, Sept 2008 (poster presentation (LAM)).

- Menzies J, **von Dadelszen P**, for the PIERS study group. The PIERS (Pre-eclampsia Integrated Estimate of RiSk) models: univariable and cluster analyses. ISSHP 16th World Congress, Washington DC, Sept 2008 (poster presentation (JM)).
- Thornton C, Ogle R, **von Dadelszen P**, Makris A, Morris J, Peek M, Hennessy A. Surveillance of outcomes for women and babies following hypertension during pregnancy. ISSHP 16th World Congress, Washington DC, Sept 2008 (poster presentation (CT)).
- Magee LA, Payne B, Menzies J, Li L, Cote AM, Kyle P, Moore P, **von Dadelszen P**. PIERS (Pre-eclampsia Integrated Estimate of RiSk): proteinuria and adverse outcomes. ISSHP 16th World Congress, Washington DC, Sept 2008 (poster presentation (LAM)).
- Fok M, Mattman A, Magee LA, Waterman E, Kyle P, Moore P, Cote AM, **von Dadelszen P**, for the PIERS study group. Spot urinary P/Cr – translating g/ml into the g/d that clinicians understand. ISSHP 16th World Congress, Washington DC, Sept 2008 (poster presentation (MF)).
- **von Dadelszen P**, for the EMMA study group. The EMMA (Evaluating Maternal Markers of Acquired risk for pre-eclampsia) model: proof of principle. ISSHP 16th World Congress, Washington DC, Sept 2008 (poster presentation (PvD)).
- Payne B, **von Dadelszen P**, for the PIERS study group. The WILL (When is Intact Livebirth Likely) model: using PIERS data to pilot a fetal prediction model. ISSHP 16th World Congress, Washington DC, Sept 2008 (poster presentation (BP)).
- Bourque DK, Avila L, Peñaherrera MS, **von Dadelszen P**, Robinson WP. Imprinted gene methylation and expression patterns in placental villi from complicated pregnancies. International Federation of Placenta Associations, Vienna, September 2008.
- Xie F, Hu Y, Speert D, Turvey S, Peng G, Magee LA, Money D, **von Dadelszen P**. Toll-like Receptor -2 and -4 gene polymorphism and pre-eclampsia. ISSHP 16th World Congress, Washington DC, Sept 2008 (poster presentation (PvD)).
- Hu Y, Eastabrook G, Tan R, Dutz J, MacCalman C, **von Dadelszen P**. Decidual NK cell-derived conditioned medium enhanced capillary network organization in an EVT cell line. ISSHP 16th World Congress, Washington DC, Sept 2008 (poster presentation (YH)).
- **von Dadelszen P**, for the EMMA study group. Correlating second trimester uterine artery Doppler resistance index and serum angiogenic growth factors with placental complications in a high risk population. ISSHP 16th World Congress, Washington DC, Sept 2008 (poster presentation (PvD)).
- **von Dadelszen P**, Menzies J, for the PIERS study group. The PIERS (Pre-eclampsia Integrated Estimate of RiSk) models: miniPIERS. ISSHP 16th World Congress, Washington DC, Sept 2008 (poster presentation (PvD)).

## **Non-refereed Publications**

### ***Pressey, Dr. Tracy***

- **Pressey T**. CAPSNet: Antenatal ultrasound detection of abnormal amniotic fluid volume predicts adverse perinatal outcomes in gastroschisis. Presented at International Society of Prenatal Diagnosis (ISPD). June 2008 (to be published in Prenatal Diagnosis, abstract 1-3).

### **Division of General Gynaecology & Obstetrics**

#### ***Cundiff, Dr. Geoffrey***

- Dalhousie University, Department of Obstetrics & Gynaecology, Halifax, NS, April 2009. "The Use of Grafts in Reconstructive Pelvic Surgery", "Overcoming the Obstacles of Clinical Research" and "Diagnosis and Management of Urinary Incontinence".

### **Division of Maternal Fetal Medicine**

#### ***Von Dadelszen, Dr. Peter***

- Translational research in pre-eclampsia and IUGR. University of Manchester Perinatal Research Group seminars, Manchester, UK, 16 March 2009.

## **MEMBERSHIPS**

### **Division of Basic Sciences**

#### **(a) Memberships on scholarly societies, including offices held**

#### ***Auersperg, Dr. Nelly***

- Society for Gynecologic Investigation
- Canadian Association of Anatomists
- American Association for Cancer Research
- International Society of Developmental Biologists
- Sigma Xi Scientific Research Society
- American Society for Cell Biology
- International Society for Differentiation: 1991-present, Director; 1992-96, Secretary/Treasurer.

#### ***Leung, Dr. Peter C.K.***

- Society for Experimental Biology and Medicine
- International Society of Neuroendocrinology
- Society for Neurosciences, USA
- Hong Kong Society of Neurosciences
- Association of Professors of Obstetrics and Gynaecology- Research Committee Representative, 1990-present.

**MacCalman, Dr. Colin**

- American Society for Cell Biology, 1992-present
- Canadian Fertility and Andrology Society, 1992-present
- Society for the Study of Reproduction, 1994-present

**Rurak, Dr. Danny W.**

- Fetal & Neonatal Physiological Society, 1977-present, member
- Society for Gynecologic Investigation, 1985-present, member
- Perinatal Research Society, 1999-present, member
- International Society for the Origins of Health and Adult Disease, 2003-present

**(b) Memberships on other societies, including offices held**

**Auersperg, Dr. Nelly**

- Honorary Board Member, Ovarian Cancer Canada. 2004-ongoing
- Trustee, BC Foundation for Non-Animal Research. 2004-ongoing

**MacCalman, Dr. Colin D.**

- Member, "Cancer A" Grants Committee, Canadian Institutes of Health Research, 2001-present

**(c) Memberships on scholarly committees, including offices held**

**Hammond, Dr. Geoffrey L.**

- Canadian Institutes of Health Research, Endocrinology Grant Committee, Chair, 2004-present
- Michael Smith Foundation for Health Research, Research Advisory Committee 2004-present
- Michael Smith Foundation for Health Research, Biomedical Research Evaluation Committee 2004-present

**Leung, Dr. Peter C.K.**

- External Assessor, Hong Kong Research Grants Council, 1995-present
- Member, Reproductive Advisory Committee, CIHR Institute of Human Development, Child & Youth Health, 2001-present
- Member, Biomedical Research Evaluation Committee, Michael Smith Foundation for Health Research, 2001-present
- Member, Canadian Research Chairs College of Reviewers, 2002-present

- Member, Scientific Board, Royan International Research Award on Infertility and Reproduction Health, Iran, 2003-present.
- Key Mentor and Member, Student Selection Committee, CIHR Strategic Training Initiative in Research in Reproductive Health Sciences, 2003-present
- Institute Advisory Board Member, CIHR Institute of Gender and Health, 2004-present

***Rurak, Dr. Danny W.***

- Alberta Heritage Foundation for Medical Research, Clinical Investigator Advisory Committee, member 2008–present

**(d) Memberships on other committees, including offices held and dates**

***Leung, Dr. Peter C.K.***

- Member, CIHR Meeting, Planning and Dissemination Grant: Gender, Sex and Health Committee, Canadian Institutes of Health Research, 2008
- Member, Site visit team to the Program on Developmental Endocrinology and Genetics, National Institute of Child Health and Human Development, NIH, Bethesda, USA, March 26-28, 2008

**(e) Editorships**

***Auersperg, Dr. Nelly***

- Associate Editor, Differentiation, Biochemistry and Cell Biology

***Hammond, Dr. Geoffrey L.***

- Journal of Molecular Endocrinology, Scientific Editor, 2005-present

***Leung, Dr. Peter C.K.***

- Journal of Reproductive Medicine (P.R. China), Corresponding Editor, 1993-present
- Reprotech (Indonesia), Member, Editorial Board, 2001-present
- Reproductive Biology and Endocrinology, Associate Editor, 2003-2004; Deputy Editor 2004-present
- Journal of Food Hygiene and Food Safety (Korea), Member, Editorial Board 2005-present
