## Outlook 2007 PhAIS Categories

We have a tool which will add the PhAIS categories into each physician profile (Ask Helen/Kerrie)

To use the Categories: Create/edit a calendar event and click 'Categorize'

	Image: Image: Second secon					vent
Save & Close At	Calendar Calendar X Delete Invite ttendees	Appointment Scheduling Assistant	Show As: Free	Recurrence Zone	Cate	gorize
	Actions	Show		Options		Clear All Categories
This appointment occurs in the past.						C>Direct>AC/clinics
iubject:						NC>Tch>Fellowship/Formal teaching
ocation:						NC>Tch>Med/OthPhys/Other Specialties
tart time:	Mon 7/9/2012	¥ 12:00 AM	All day event			NC>Tch>Multidisciplinary
and time:	Mon 7/9/2012	• 12:00 AM				NC>Tch>Postgrad / Formal teaching
and time.	WOIT 7/3/2012	12.00 AM				NC>Tch>Postgrad/Evaluations
						NC>Tch>Undergrad/Formal teaching
						NC>Tch>Undergrad/Clinical teaching
						Oth>CMF Leave
					lă	Oth>Oth>Oth Leave
					Ĭ	Oth>Sick/MedLeave
						Oth>Vacation
					Ō	PartTimeCategory
					ō	reisonal
				(	-	All Categories
					<u> </u>	

The most recently used categories appear at the top – click at bottom to see 'All Categories' to give screen below.

Note:

- Default categories eg 'Blue Category' can be renamed for use or deleted.
- A PhAIS category is actually identified as one starting with "C>" or "NC>" or "Oth>" or "FHA>" additional personal categories should not start with these.
- Deleting a category which is in use (by an event) will retain it but be marked 'not in master category list'.
- Only unused categories will fully delete.
- Most of the reincarnated categories could be removed by archiving items prior to Jan 2011 just like you archive emails (to a .pst file on physician U drive).
- The black categories are retired PhAIS categories and should not be used.

The following are the valid PhAIS categories with colour coding

C>Direct>AC>dinics
