

Reproductive Endocrinologist and Infertility Specialist

The Division of Reproductive Endocrinology and Infertility, Department of Obstetrics and Gynecology, UBC and Genesis Fertility Centre are seeking a reproductive endocrinologist and infertility specialist with proficiency in assisted reproductive technologies and a combined clinical academic role as a clinician educator. This position will be hired by Genesis Fertility Centre and work in collaboration with the UBC Department.

The successful applicant's experience will include infertility diagnosis and treatment including proficiency with in-vitro fertilization and associated techniques, and participation in the on-call schedule. The successful candidate will possess an enthusiastic professional attitude and excellent communication and team skills. Attention to detail, clinical and academic excellence and productivity are rewarded. The ideal candidates will have a commitment to academic life as a clinician educator or by contributing to clinical/ basic science research. A completed or intended masters in clinical education/ other structured educational learning will also be an asset.

The Division of Reproductive Endocrinology and Infertility, Department of Obstetrics and Gynecology at UBC is committed to education. A commitment to medical education is required. Opportunities to participate in other areas of academic life eg. educational, clinical or other research are also available and encouraged. Bedside clinical teaching, participation in academic teaching rounds, journal clubs, mentorship and research supervision at all levels is encouraged. Candidates will be expected to interact with learners at least one day a week and may have protected time (if desired) from clinical work up to a half day every 2 weeks. Protected time can be negotiated based on academic goals and clarified objectives and deliverables.

Reporting will be through to the Medical Director of Genesis Fertility Centre, to the Head of the Division of REI, and to the Head of the Department of Obstetrics and Gynecology at UBC.

It is expected that the successful candidate will apply for and hold a clinical faculty appointment in the Department of Obstetrics & Gynaecology at the University of British Columbia. As a clinical faculty member, the successful candidate will be expected to involve learners in clinical activity, and participate in program development and student evaluation.

As the successful applicant for this position, you will have subspecialty training in Reproductive Endocrinology and Infertility, be certificant with the Royal College of Physicians and Surgeons of Canada (RCPSC) and be certificant/eligible for licensure to practice from the College of Physicians and Surgeons of BC.

The anticipated start date is as soon as possible.

Department of Obstetrics & Gynaecology

A letter of application, including a curriculum vitae, a teaching dossier, a description of educational/research interests, representative publications and three (3) references who can address scholarly, professional and creative work, teaching and administration should be directed to:
