Assistant Professor (Tenure Track) | Department of Obstetrics & Gynaecology

The Department of Obstetrics & Gynaecology at The University of British Columbia (UBC) invite applications from academic gynaecologists with an interest and expertise in female sexual medicine/vulvovaginal disorders for a faculty position at the rank of Assistant Professor, tenure track.

The UBC Department of Obstetrics & Gynaecology has training programs at the undergraduate, graduate and postgraduate levels, and pursues research to make innovative advancements in knowledge and practice to improve health. The Department consists of more than 300 physicians and scientists as well as over 50 administrative, research, and technical staff. Sub-specialty training programs are offered in gynaecologic oncology, maternal fetal medicine, reproductive endocrinology and infertility as well as advanced training programs in endometriosis, pelvic pain and advanced laparoscopic surgery, family planning, vulvovaginal health and female pelvic medicine and reconstructive surgery. The department has a long history of providing training for residents in sexual medicine through a multi-disciplinary clinical sexual medicine program. The B.C. Centre for Vulvar Health is a related clinical program involving the UBC Departments of Obstetrics and Gynaecology and Dermatology and Skin Science. In addition, there are well-established research programs including UBC Sexual Health Research, focused on clinical and behavioral research in women’s sexual health, and the Gynaecologic Cancer Initiative, with a major focus on sexual health and survivorship.

This is an academic appointment with expectations for teaching and discovery. Reporting through their Division Head to the Head of the UBC Department of Obstetrics & Gynaecology, the successful candidate will offer related clinical services through the BC Centre for Vulvar Health, and Vancouver Coastal Health. The incumbent will be expected to develop and implement clinical programs that address psychosexual health, including the needs of women with chronic and complex vulvar and sexual disorders (eg. VIN). The candidate will work collaboratively within a multidisciplinary team of health care providers consisting of gynaecologists, gynaecologic oncologists, psychologists, pelvic floor physiotherapists, dermatologists, psychiatrists, urologists, and nurses. The candidate will be expected to lead a program of research in these areas and collaborate with researchers within and outside of the Department (eg. UBC Sexual Health Lab, BC Gynaecologic Cancer Initiative, UBC Dermatology and Skin Science, UBC Department of Urologic and Skin Science). The academic work will focus on developing a robust research program within sexual medicine. Sustaining this academic appointment and achieving promotion will require the development of a successfully funded and productive research program.

The appointee will be expected to participate in the teaching activities of the Department, as well as provide mentorship and training to undergraduate, graduate, and postgraduate learners.

The successful candidate will hold an MD and certification from the Royal College of Physicians and Surgeons of Canada in Obstetrics and Gynaecology, or equivalent credentials. Applicants who have received additional training related to female sexual medicine, vulvovaginal disorders, pelvic pain, or survivorship are preferred. The successful candidate will show demonstrated ability to achieve excellence in teaching, and will be expected to participate in the undergraduate, graduate, and postgraduate teaching activities of the units. The incumbent will also show demonstrated ability in scholarly activity, and potential to become an independent scholar with an extramurally funded research program. The incumbent will be expected to provide service to the University and the broader academic and professional community.

Salary will be commensurate with qualifications and experience. A letter of application outlining the applicant’s research and teaching interests, accompanied by a detailed curriculum vitae and the names of three references should be directed to:

Donna Bradley
Human Resources Manager, UBC Department of Obstetrics & Gynaecology
Review of applications will begin on April 30, 2020 and continue until the position is filled. The anticipated start date for this position is September 1, 2020 or upon a date to be mutually agreed.

The University of British Columbia is a global centre for research and teaching, consistently ranked among the top 20 public universities in the world. Since 1915, UBC’s entrepreneurial spirit has embraced innovation and challenged the status quo. UBC encourages its students, staff and faculty to challenge convention, lead discovery and explore new ways of learning. At UBC, bold thinking is given a place to develop into ideas that can change the world.

Our Vision: To Transform Health for Everyone.

Ranked among the world’s top medical schools with the fifth-largest MD enrollment in North America, the UBC Faculty of Medicine is a leader in both the science and the practice of medicine. Across British Columbia, more than 11,000 faculty and staff are training the next generation of doctors and health care professionals, making remarkable discoveries, and helping to create the pathways to better health for our communities at home and around the world.

The Faculty — comprised of approximately 2,200 administrative support, technical/research and management and professional staff, as well approximately 650 full-time academic and over 9,000 clinical faculty members — is composed of 19 academic basic science and/or clinical departments, three schools, and 24 research centres and institutes. Together with its University and Health Authority partners, the Faculty delivers innovative programs and conducts research in the areas of health and life sciences. Faculty, staff and trainees are located at university campuses, clinical academic campuses in hospital settings and other regionally based centres across the province.

Equity and diversity are essential to academic excellence. An open and diverse community fosters the inclusion of voices that have been underrepresented or discouraged. We encourage applications from members of groups that have been marginalized on any grounds enumerated under the B.C. Human Rights Code, including sex, sexual orientation, gender identity or expression, racialization, disability, political belief, religion, marital or family status, age, and/or status as a First Nation, Metis, Inuit, or Indigenous person. All qualified candidates are encouraged to apply; however Canadians and permanent residents of Canada will be given priority.
