

Events, Workshops, and Seminars

- (1) **NEW! Patient-Oriented KT.** (PHC / BC SUPPORT Unit) As part of the PHC Knowledge Translation (KT) Community of Practice, Lynne Feehan from the BC SUPPORT Unit will be presenting on **September 17, 2019** about the relationship between patient-oriented research and knowledge translation. This event is also available via webinar. Find the details on our [website](#).
- (2) **NEW! Shaping a Healthy Future for Young Women.** (WHRI) **September 19, 2019** from **7:00 to 8:30pm** at the Italian Cultural Centre (3075 Slocan St.). Join us for a back-to-school, free public health event. Find out what it takes to ensure a healthier future for the young women in your life. Featuring Dr. Liisa Galea (MC), Dr. Monika Naus (cervical cancer prevention), Dr. Dzung X. Vo (mental wellness), Ms. Nicole Pasquino (sexual health), and Dr. Sarah Moore (physical activity). [Check out our Facebook page](#) or [Register](#) for the event.
- (3) **NEW! *** Sent on behalf of WHRI *** The BC Women's Research Rounds** feature investigators who specialize in the area of women's health. Come hear the latest in women's health research every third Friday of the month at 8:00 am. The next presentation will be on **September 20, 2019**. Drinks and snacks are provided.

Subject: **BC Women's Research Rounds**
Title: **Discovering ME/CFS: How epidemiology and clinical research can help**
Presenter: **Dr. Luis Nacul**
Date: **September 20, 2019, Friday**
Time: **8:00am – 9:00 am**
Location: **Room D308 – Shaughnessy Building**

Goals/Learning Objectives:

1. **The epidemiology of ME/CFS**
2. **Challenges in diagnosing ME/CFS**
3. **Approaches to research in ME/CFS**

"The BC Women's Research Rounds is a self-approved group learning activity (Section1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada".

Videoconferencing Sites:

UBC-Okanagan	VC: UBCO	RHS 129
Vancouver General Hospital	VC: VGH	DHCC 2262
Northern BC	VC: UHNBC	UHNBC 5005
Northern BC	VC: ARC	MMH 1020

How to attend remotely:

Note: **Use a computer.** Mobile devices (smart phones, tablets) are not supported.

- **Web-browser:** In Chrome browser, go to <http://meet.vc.ubc.ca> and enter the ID **30338**. For instructions and troubleshooting, see the [Web Browser User Guide](#).
- **UBC Skype for Business** (account holders only): In the Contact box, enter < **30338**>@vc.ubc.ca to join the meeting. Refer to the [troubleshooting guide](#)
- **Telephone** (Audio-bridge): Dial toll-free phone number, 1-844-651-2007, followed by ID **30338**, followed by #
- **MedIT Service Desk** (Monday-Friday, 7am-5pm): For remote technical assistance during the session, please call 1-877-266-0666

(4) NEW! 2019 Clinical Research Ethics Symposium. (Research Ethics BC) **October 16, 2019**, from **8:30am to 4pm**. The full-day event is intended to offer an opportunity for REB members and the research ethics community at large (including clinical researchers and patient partners) to discuss current topics of interest including the newly updated TCPS 2 (2018), incidental findings, ethical concerns surrounding the opioid crisis, and harmonized clinical trials. Refreshments and lunch will be provided. Free registration via Eventbrite [here](#).

(5) World Sexual Health Day celebration. (WHRI) **September 4, 2019**. The focus this year will be on trainees, students, fellows, and other researchers in training to present their completed research, research in progress, or any planned research. Talks will be rapid-fire (approximately 5 minutes each). If interested, please submit your abstract and abstract title of no more than 300 words to whri_cwbc@cw.bc.ca and include "World Sexual Health Day abstract" in the email subject line. The deadline for abstracts is **August 23, 2019**.

(6) What, Why, Where, When and How to Hold Your First First-In-Human Trial. (Johnson & Johnson Innovation in partnership with Clinical Trials BC) **September 12, 2019 from 1:30pm to 5:00pm at UBC Robson Square**. Tickets are \$20 (General Public or Licensed Physician) or \$10 (Student/Academic) each: use discount code **TRIALSBC** for 20% off ticket price. [Register now](#).

(7) The 5th International Neonatal & Maternal Immunization Symposium will be held in Vancouver on **September 15-17, 2019**. The 3 day symposium will provide up-to-date information on key areas in maternal and neonatal immunization from vaccine development through to immunization program implementation. Registration information is available [here](#).

(8) Northwest Gynecological Cancer Symposium 2019 will be held **September 25, 2019** from 8AM to 7PM at **U of Washington, Seattle**. [Submit an abstract](#) (deadline ~~July 15, 2019~~). [Registration](#) includes participation in all events including catered lunch and reception. There is NO FEE for registration. Individuals submitting abstracts will be automatically registered.

(9) Practicing Knowledge Translation (PKT) course. **October 7-11, 2019**. Are you interested in learning how to implement practices using comprehensive methods and the best available evidence? The Li Ka Shing Knowledge Institute of St. Michael's Hospital is accepting applications for their upcoming 5-day course on Knowledge Translation (KT). [Apply now](#) (deadline **August 8, 2019**).

(10) [Putting Patients First 2019 conference](#). (BC AHSCN) **November 20, 2019** at the Marriott Vancouver Pinnacle Downtown. An annual conference hosted by BC SUPPORT Unit designed to encourage learning and collaboration between patients interested in patient-oriented research (POR), health researchers, health care providers and health system decision makers.

Awards and Funding Opportunities

(1) **NEW!** CIHR/NSERC/SSHRC: [Healthy Cities Research Training Platform \(HCRTP\)](#). **LOI deadline: December 10, 2019. Approximately SIX (6) developmental grants each of up to \$25,000, and ONE (1) full application grant of up to \$825,000 per year for up to 6 years, are available.** The purpose of this funding opportunity is to facilitate the development of an interdisciplinary, cross-sectoral training initiative that will generate cutting-edge knowledge and build capacity for implementation science and solutions-based research. This funding opportunity will support a team in designing and delivering a national research training initiative focused on how to create, implement, and scale innovative, solution-based interventions in a variety of urban contexts focused on promoting healthy, resilient, sustainable and equitable cities. Accomplishing this goal will require experts from diverse disciplines including public health, epidemiology, economics, sociology, law, ethics, engineering, environmental science and urban planning, which is why partnership across the three research funding agencies is essential. The application process for the HCRTP will consist of a Letter of Intent (LOI) stage, where up to six successful applicants will receive developmental grants, and a Full Application stage where one application will receive the full grant. The HCRTP is a major component of the CIHR [Healthy Cities Research Initiative](#) (HCRI).

CIHR/NSERC/SSHRC will be holding an informational webinar on September 23, 2019 from 10am to 12pm.

(2) **NEW! Did You Know?...** VCHRI: [Research funding opportunities \(various\)](#). VCH Research Institute offers a variety of internal awards and funding competitions for individual investigators and teams. Learn more about upcoming awards, including application deadlines: [Investigator Award](#), [Innovation and Translational Research Award](#), [Knowledge Translation Challenge](#), and [Team Grant](#).

(3) [UBC FoM Canada Research Chair \(CRC\) Competition](#). **Expression of Interest (EOI) deadline: September 3, 2019. Full proposal deadline: October 7, 2019.** With the launch of the 2016-2021 [strategic plan](#), UBC Faculty of Medicine will allocate up to 8 chairs (4 each of CRC Tier 1 and CRC Tier 2 Chairs) through a competition open to FoM Departments/Schools

with Centres/Institutes as partners, as appropriate. Departments/Schools may submit proposals for internal or external chairs: for this competition, internal nominees must be full-time, tenure-stream UBC faculty; otherwise they are considered external nominees. Departments/Schools may submit a maximum number of proposals based on the composition of, and number of tenure stream faculty members in, the Department/School.

(4) CIHR/NSERC/SSHRC: [New Frontiers in Research Fund \(NFRF\)](#) – This initiative will fund international, interdisciplinary, fast-breaking, and high-risk research. *NFRF is composed of 3 streams to support groundbreaking research: **EXPLORATION** (building strength in high-risk, high-reward and interdisciplinary research), **TRANSFORMATION** (building strength and leadership in interdisciplinary and transformative research), and **INTERNATIONAL** (enhancing opportunities for Canadian researchers to collaborate with international partners).* Current funding opportunities: **2019 [EXPLORATION Competition](#)** – ~~NOI deadline: August 7, 2019.~~ **LOI deadline: September 4, 2019. Application deadline: December 10, 2019.** One hundred (100) grants are available. Successful projects will be funded at up to \$125,000 per year for up to 2 years. **UBC SPARC** is pleased to provide support services and resources to interested applicants. [Read more...](#)

(5) CIHR: [Data Analysis Using Existing Databases and Cohorts](#). Registration **deadline: September 5, 2019. Application deadline: October 10, 2019.** **Up to ~23 awards of between \$450,000 (reproductive, maternal, child, and youth health) and \$1,000,000 (cancer prevention and control) are available for a 1-year period.** Funding is available for applications that use data from existing Canadian cohorts, databases, cohort catalogues, and data platforms, that are relevant to **reproductive, child, and/or maternal health** in any one or more of [IHDCYH's six strategic priorities](#). **“Canadian” data sources** are those where the data are either held in Canada or the principal investigator/custodian of the data to be used is

based at a Canadian institution / organization.

(6) BC Support Unit in partnership with MSFHR: [Pathway to Patient-Oriented Research P2P Awards](#). LOI

deadline: September 6, 2019. LOI submissions meeting the award eligibility criteria will be **invited to submit a full application**. P2P Awards are offered by the BC SUPPORT Unit in partnership with the [Michael Smith Foundation for Health Research \(MSFHR\)](#). These awards help BC-based patient-oriented research teams pilot and test the feasibility of their research project, to make their future grant applications stronger. Through P2P Awards, we hope to build and strengthen capacity in patient-oriented research in BC. A P2P overview webinar was held on September 14th, 2018 – [view the recording here](#).

(7) CIHR: [Fall 2019 Project Grant](#). ~~Registration deadline: August 14, 2019.~~ **Application deadline: September 11, 2019.** The program is open to applicants in all areas of health research that are aligned with the CIHR mandate. Funding is also available for specific research areas. Refer to the [Project Grant: Fall 2019 Priority Announcements \(Specific Research Areas\)](#) for further details.

(8) CIHR/NSERC/SSHRC + UK Research and Innovation (UKRI): [Canada-UK Artificial Intelligence Initiative](#) – ~~Intention to Submit Deadline: August 19, 2019;~~ **Application Deadline: September 12, 2019.** The rapid development and ever-growing global investment in AI illustrates the undeniable impact that these technologies are having, and will have, on our economies, health, and societies. Canadian agencies and UKRI are jointly supporting the development of collaboration in AI with the aim to build competitive and resilient economies and maximize the social and health benefits.

This unique collaboration requires each project to include a PI based in Canada and a PI based in the UK, and the PIs will equally share the leadership and project management responsibilities. Proposals will be required to demonstrate a significant degree of, or novel

approach to, interdisciplinarity, with research that cuts across at least 2 of the following research domains: social sciences and humanities, health and biomedical sciences, and natural sciences and engineering including computational and/or mathematical sciences.

Approximately **ten (10) projects will be funded**. For Canadian researchers / successful applicants, the maximum amount available is **C\$173,333 (£102,000) per year for up to 3 years**.

(9) [GCI-CTG Accelerating Grants for Clinical Studies 2019-2020 Competition](#). Proposal submission

deadline: September 13, 2019. As part of its commitment to enhancing clinical trials capacity, the Gynecologic Cancer Initiative-Clinical Trials Group (GCI-CTG) is pleased to launch a round of funding applications to support clinical research on gynecologic cancers. It is expected that up to THREE (3) 2-year grants of between **\$50,000-\$100,000** will be awarded for the 2019-2020 competition.

(10) [Alfred P. Sloan Foundation: 2020 Sloan Research Fellowships](#). Nomination

deadline: September 16, 2019. The Sloan Research Fellowships seek to stimulate fundamental research by early-career scientists and scholars of outstanding promise. These 2-year fellowships are awarded yearly to 126 researchers in recognition of distinguished performance and a unique potential to make substantial contributions to their field. The 2020 Sloan Research Fellows will receive fellowships in the amount of **\$75,000**.

(11) CIHR/NSERC/SSHRC: [Banting Postdoctoral Fellowships](#). Application

deadline: September 18, 2019. The fellowship is valued at **\$70,000 per year for a 2-year period**. Successful applicants will positively contribute to the country's economic, social and research-based growth.

(12) UBC: [Grants for Catalyzing Research Clusters \(GCRC\)](#). Notice of Intent (NOI)

deadline: September 23, 2019. Application deadline: November 12, 2019. Fostering collaboration is a central priority in UBC's new strategic plan ([Shaping UBC's Next Century](#)). The Grants for Catalyzing Research Clusters (GCRC) competition was jointly created by the Vice-President Research & Innovation and the Provost & Vice-President Academic to enable

the formation and growth of interdisciplinary clusters of research excellence. Researchers from all disciplines are invited to apply.

Award Details: We invite applications led by PIs from all disciplines who seek to propel their clusters towards global leadership. Applicants will be asked to self-identify on the application if the proposed cluster should be considered as *Emerging* or *Established*. *Emerging* clusters may request an award up to \$100,000 per proposal (and up to \$15k trainee supplement). *Established* clusters may apply for awards up to \$200,000 (and up to \$30k trainee supplement). Applications must include a strong budget justification that aligns specific activities with goals and expected outcomes. A total funding envelope of \$4M is available for this competition.

Generalized characteristics and potential catalytic activities are presented here for illustrative purposes:

	<i>Examples of cluster characteristics</i>	<i>Examples of catalytic activities</i>
<i>Emerging clusters</i> (up to \$100k)	<ul style="list-style-type: none"> Emerging leaders (collaborative history a bonus) Some knowledge mobilization activities Defined pathway to impact Strong academic impact 	<ul style="list-style-type: none"> Secure group grants Demonstrate group collaboration Initiate and develop partnership Community engagement Joint or collaborative events Joint or collaborative events
<i>Established clusters</i> (up to \$200k)	<ul style="list-style-type: none"> Recognized internationally as leaders Sustained knowledge mobilization activities Strong socio-economic impact Securing self-sustaining funding 	<ul style="list-style-type: none"> Expand international partnership Deepen community engagement Partner across sectors Development of an innovation p

(13) [HRF Artificial Intelligence Health Research Fellowships](#). Application deadline: September 27, 2019. In 2019, the Health Research Foundation (HRF) of Innovative Medicines Canada will award TWO (2) research fellowships in the area of Artificial Intelligence (AI) Health Research in its impact on health care in Canada. One of the fellowships will focus on AI’s impact on health system sustainability, while the second fellowship will focus on AI’s impact on patient outcomes. The objectives of the HRF fellowships is to support outstanding MD and/or PhD researchers to become future scientists and healthcare leaders, and to facilitate collaboration, teamwork, and trust between academic research centers and the pharmaceutical industry to find better ways to transfer knowledge from research to the health system. Each fellowship will have an award of **\$100,000**. Review the [fellowship application guidelines](#) and download the [fellowship application form here](#).

(14) WHRI/BCWHF: [2019 Catalyst Grant Competition](#) – ~~LOI deadline: August 1, 2019.~~ **Application deadline: September 30, 2019.** Six (6) awards each of \$25,000 are available. The purpose of this funding is to facilitate pilot research projects to support the advancement of knowledge in women’s and newborn’s health. Awards are open to BC researchers at a university or research hospital setting, but candidates must be a member of the WHRI, and have not been a successful Principal Applicant in the previous three years of Catalyst Competitions. Eligible researchers include post-doctoral fellows, clinical fellows, research associates, clinician scientists and academic researchers.

(15) [Excellence in Patient-Oriented Research \(POR\) Award](#). **Application deadline: September 30, 2019.** The BC SUPPORT Unit is partnering with [VCHRI](#) to launch the [Excellence in Patient-Oriented Research \(POR\) Award](#). The purpose of this competition is to promote excellence and build capacity for patient-oriented research for clinician scientist investigators located at the Vancouver General Hospital, UBC Hospital, Richmond Hospital and G.F. Strong Rehabilitation Centre. Applicants are eligible if they hold an active VCHRI Investigator award. An information session will be held on September 9 for interested applicants – [sign up for the information session](#).

(16) [Baillet Latour Grant for Medical Research \(Baillet Latour Health Prize\) / Le Prix de la Sante 2020](#). **Nomination deadline: September 30, 2019.** This personal award of €250,000 is granted every year for outstanding achievements in biomedical research for the benefit of human health, to recognize scientific merit and to stimulate scientific research and intellectual creativity. The theme for 2020 will be “Metabolic Disorders”. Go to the online [Application Form](#).

(17) UBC: [Faculty Research Awards](#) (various). **Nomination deadlines: September/October 2019.** These awards are valued at between \$3,000 and \$15,000 and serve to recognize individual investigators who demonstrate excellence in research.

(18) CIHR: [CIHR Fellowship 2019-2020](#). **Application deadline: October 1, 2019.** Supporting applicants at the post-PhD or post-health professional degree stages. **The awards consist of a stipend and a research allowance.** The maximum amount awarded for a single award is up to \$60,000 per annum for up to 5 years – the value and duration of each award will be determined by the degree(s) held, licensure (where applicable), location of tenure, and experience of the applicant.

(19) Gairdner Foundation: [2020 John Dirks Canada Gairdner Global Health Award](#). **Nomination deadline: October 1, 2019.** The prestigious John Dirks Canada Gairdner Global Health Award recognizes the world’s top scientists who have made outstanding achievements in Global Health Research.

(20) CIHR: [CIHR Sex and Gender Science Chair](#) – **Application deadline: Oct 8, 2019.** *Funding up to \$175,000 per year for 4 years is available to support applications that seek to grow the science of sex and gender research.*

(21) CIHR Institute of Human Development, Child and Youth Health (IHDCYH): [2019 IHDCYR Talks Video Competition](#) – **Application deadline: October 15, 2019.** This competition is intended to improve knowledge translation (KT) of research within the Insitute’s [mandate](#) and/or [strategic research priorities](#). There will be funding for **ONE (1) first-**

place prize of \$3,000, ONE (1) runner-up prize of \$1,000, and TWO (2) specially-commended prizes of \$750 each. Read the news announcement here. [Read the July 3rd CIHR News Announcement here.](#)

- (22) CIHR/SSHRC/NSERC: [Canada Graduate Scholarships – Doctoral \(CGS D\) Program](#) – Application deadline: **October 17, 2019. Awards valued at \$35,000 per year for up to 3 years are available.** Joint programs with a professional degree (e.g., MD/PhD, DVM/PhD, JD/PhD, MBA/PhD) as well as **clinically oriented programs of study**, including clinical psychology, are eligible if they have a significant autonomous research component.
- (23) CIHR: [Women’s Health Clinical Mentorship Grant](#) – Application deadline: **October 22, 2019. Twelve awards each of \$50,000 (1 year) are available.** The purpose of this funding opportunity is to advance clinical research in women’s health and to build capacity in the next generation of women’s health clinician-researchers. The aim is for trainees, students or residents to be paired with and mentored by a women’s health clinician-specialist on a one-year research project with the goal of improving clinical care.
- (24) CIHR/NSERC/SSHRC: [Vanier Canada Graduate Scholarships](#) – Application deadline: **November 6, 2019. Valued at \$50,000 per year for 3 years during doctoral studies.** Application open to Canadian citizens, permanent residents, and foreign citizens. Areas of research eligible for funding support include Health Research, Natural Sciences and/or Engineering Research, and/or Social Sciences and Humanities Research.
- (25) **Did You Know?...** Mitacs: [Support for Graduate Students in Canada](#): [Mitacs](#) builds partnerships between academia, industry, and the world – to create a more innovative Canada. Mitacs is providing support for graduate student research and professional development in all academic disciplines. [Read more...](#)
- (26) **Did You Know?...** Are you a health researcher who's looking for funding opportunities in patient-oriented research? The [BC SUPPORT Unit](#) maintains a list of grants that might be of interest to you. Visit our Funding Opportunities page at bcsupportunit.ca/news/funding-o... to learn more!
- (27) **Did You Know?...** [PlanH](#), implemented by [BC Healthy Communities Society](#) (BCHC), facilitates local government learning, partnership development and planning for healthier communities where we live, learn, work and play. Working together with health authorities, UBCM and the Ministry of Health, PlanH supports the Province’s health promotion strategy. Plan H understands that finding and securing funding that is relevant to the needs of your community can be challenging. In order to better assist you in developing your healthy community projects and/or programs, PlanH has compiled a list of funding opportunities that might be worth knowing about, along with guides and resources to support your grant writing activities: navigate to <https://planh.ca/training-support/other-funding-opportunities> then click the drop-down from “Health Research” for a [list of health research-related funding opportunities](#).

Research Resources and Other News etc.

(1) FINAL CALL! (WHRI/BCWH) Participate in the [WHRI/BCWH Digital Health Survey](#) for a chance to win 1 of four \$50 Amazon gift cards! This is the final call to participate in the WHRI/BCWH digital health survey and environmental scan. Even if you are not working in the area of digital health you can help to shape digital health research and services priorities at the Women's Health Research Institute and BC Women's Hospital by completing two short questions in the digital health survey. **Questions?** Please contact WHRI. **Ciana Maher** (Research Program Manager, Digital Health), Tel: 604-875-2424 x4978 Email: ciana.maher@cw.bc.ca. [Take the Survey.](#)

(2) UPDATED! (CIHR/NSERC/SSHRC) Tri-Council Policy Statement: Ethical Conduct for Research Involving Humans - TCPS 2 (2018): CIHR, NSERC and SSHRC have recently updated their joint policy to promote the ethical design and conduct of research involving humans. [Read more...](#)

(3) RECRUITING: P2RISM (Pregnancy and Pediatric Reference Intervals for Safe Medicine) is an initiative to improve lab test interpretation for mothers and neonates, developing and using a patient-centered study protocol. Working with the lab, blood from healthy moms and their babies will be collected after delivery (at the same time as NBS/bilirubin screening sampling).

How can you help? We are asking that health care providers be aware of P2RISM, display study materials in patient areas, let their patients know about the study and help us spread the word. More information can be found on our website: <https://www.bcchr.ca/prism>.

Questions? Please contact the study team. **Ashton Ellis** (Study Coordinator), Tel: 604-875-2000 x7841 Email: prism@cw.bc.ca.

We greatly appreciate your support and assistance in this initiative.

(4) NEW! Did You Know?... (PHCRI/MSFHR) The [Providence Health Care Knowledge Translation Community of Practice \(PHC KT CoP\)](#) welcomes researchers, clinicians and other PHC staff members who want to learn with their colleagues about creative and effective ways to improve patient health through use of research evidence. The PHC KT CoP was established in 2015 to bring knowledge translation resources to health research and clinical care professionals across disciplines. The initiative is led by Aggie Black, Director, Health Services & Clinical Research and Knowledge Translation, and Emily Zamora, Clinical Resource Dietitian at PHC, with the support of PHC Research Institute and Michael Smith Foundation for Health Research. **Want to attend KT CoP meetings?** The PHC KT CoP meets quarterly. The agenda will include: (1) KT Concepts -- we'll have a brief discussion of a major KT concept; (2) "Brag & Steal" -- showcasing resources/tools; (3) "Share & Solve" -- sharing projects & getting input.

(5) NEW! Did You Know?... *Sent on behalf of WHRI and Perinatal Services BC*** (PSBC/WHRI)** Access to the [BC Perinatal Data Registry for WHRI Members](#). The Women's Health Research Institute (WHRI) is pleased to partner with Perinatal Services BC (PSBC), allowing WHRI members to have streamlined access to data from the BC Perinatal Data Registry (BCPDR) through a dedicated in-house Data Analyst at the WHRI. The BCPDR contains maternal, fetal, and neonatal health information for an estimated 99% of all deliveries and births that occur in British Columbia. From the year 2000, the BCPDR has captured approximately 45,000 births per year, including data on maternal postpartum readmissions up to 42 days post-delivery and baby transfers and readmissions up to 28 days after birth. Access to

person specific (record level) de-identified data from the BCPDR can be provided for addressing a specific set of research questions. Aggregate data without personal information that are expressed in summary form (i.e. total births, average age of mother at delivery, total cesarean sections, etc.) are also available to assist with research planning.

The WHRI is now able to accept, review, and approve data access requests, as well as providing the data, for WHRI members. We are able to offer co-ordination of the entire data access request process, including guidance, support, and advice to WHRI members who are preparing an application for BCPDR data.

You are able to apply for **research data** from the BCPDR facilitated through the WHRI if:

- You are a WHRI member, or under the supervision of WHRI member
- You require access to an unlinked set of data from the BCPDR. You cannot link WHRI BCPDR data with any other data.
- Your project has been approved by a Research Ethics Board.
- **You have contacted the WHRI Data Analyst prior to submission of the Data Access Request.**

You are able to apply for **aggregate data** from the BCPDR facilitated through the WHRI if:

- You are a WHRI member, or under the supervision of WHRI member.
- You are requesting data for provincial or sub-provincial (e.g. Health Authority) summary data that do not include personal information or potential identifiers.
- You require the data for the purposes of research planning only.
- **You have contacted the WHRI Data Analyst prior to submission of the Data Access Request.**

For more information on the BCPDR facilitated by the WHRI, including a list of available fields, please see our website: <http://whri.org/bc-perinatal-data-registry/>

Questions? Please contact **Emma Branch** (WHRI Data Analyst), Tel: 604-875-2424 x4796 Email: emma.branch@cw.bc.ca

(6) BC Biobank Registration Program. The program focuses on collections of human samples that are collected, stored, and used for health research.

Inclusion Criteria:

New biospecimen research collections that arise in the course of pursuing - basic research projects, translational research studies, clinical studies and trials, i.e. when creating a collection to support future health research.

Exclusion Criteria:

Biospecimen collections that are

- intended for clinical purposes
- part of industry sponsored studies
- stored for less than three months

Click [here](#) to get a full list of tissues and formats included and excluded in the program

Benefits and Value of the Program:

Engagement with the program will give researchers

- access to education about handling research biospecimens
- increased access to known-quality fit-for-purpose biospecimens
- the ability to draw on similar cohorts in order to validate their studies
- increased competitiveness – quality of future data generated on biospecimens of known standard can be recognized by journals and peer reviewers

For more information about why this program is being implemented

download the [Health Research Council of BC Joint Statement](#).

- (7) **(BC Patient Safety & Quality Council) [A Guide to Patient Engagement](#)**: By inviting patients, family members and caregivers to work in partnership with your health care team, you are taking an important step to making health care better for all British Columbians. In this resource, we'll cover the essentials of patient engagement, how to prepare for it, where you can find patient partners and how to engage them well. [Download the guide](#).
- (8) **(UBC Faculty of Medicine) [Patient-Oriented Research Repository \(PoRR\)](#)**: PoRR is a repository of patient-oriented research (POR) projects with the aim of connecting interested undergraduate students with ongoing projects at UBC. If you are a PI looking for a suitable undergraduate trainee to work on your POR project, or if you are a trainee interested in gaining experience on a research project where patient engagement has been prioritized, please visit [PoRRMed](#) for more information.
- (9) **(UBC Faculty of Medicine) [Postdoctoral Enhanced Scholar Program](#)** is designed for postdocs to transition into professional positions in teaching, research, business, or clinical settings through self-directed formal training and career development. All UBC FOM postdocs are eligible to join this free program and will receive a certificate upon completion. [Read more...](#)
- (10) **[Honeybee](#)** is a new, free recruitment platform that aims to connect researchers and participants.

Honeybee is not restricted to a specific location or demographic as our mission is to build a global community that's more knowledgeable/educated about study participation all around. We're based out of Toronto but trying to expand to researchers globally to match the amount of interest for research participation from users and social media followers around the world (including US and Australia!)

We are currently focusing on helping academic and hospital researchers because these areas have the most difficulty and lower budget for recruitment. We're easily reaching the young adult (Age 18 – 25 yo) demographic via free social media marketing but we've connected participants to a variety of studies including children (parents enrolling them) to older adults studies, in both healthy and diseased populations. Since we've only launched

two months ago, you may have noticed that our studies are based in Toronto. But we're working rigorously to grow and expand by connecting with major academic institutions like UBC!

Honeybee wants to help researchers with the recruitment process and to customize their platform according to user feedback. Honeybee knows recruitment can be the hardest aspect of conducting a research study; through building a community of friendly researchers and participants, we want to change the way people perceive research participation to solve this challenge, long-term. Our [website](#) was launched in May 2019. Consider joining Honeybee in building a research community together! [Read more...](#)

(11) [The Canadian Cancer Clinical Trials Network \(3CTN\)](#) is a pan-Canadian initiative to improve the efficiency and quality of clinical trials in Canada. 3CTN will provide support and coordination for a network of teams at cancer treatment centres and hospitals. With regional participation, 3CTN will enable sites to increase their capacity and capability to conduct academic trials. [Read more...](#)

(12) (UBC) [SPARC Support and Resources](#): SPARC is a unit in the VP, Research and Innovation portfolio of the university that aims to assist faculty researchers by providing strategic research funding development services and resources designed to develop capacity, build collaborations, increase CIHR/NSERC/SSHRC grant application success rates, and enhance research excellence at UBC. SPARC services and resources are available to researchers at UBC's Vancouver, Okanagan, and academic hospital campuses. [Read more...](#)

(13) [Did You Know?...](#) (CHEOS) [Clinical Research 101](#). The Centre for Health Evaluation & Outcome Sciences (CHEOS) offers [Clinical Research 101](#), a series of online articles to help researchers and clinicians navigate the clinical research process. Check out the latest installment "[Risk Management 101](#)" by Dana Nohynek, Director of Regulatory Affairs and Quality Assurance, who provides an overview of how and why to manage risk in clinical trials. [Read more...](#)

(14) MSFHR launches [KT Pathways](#): Do you create or use research evidence? [KT Pathways](#), developed in partnership with PHC, is a FREE digital assessment and learning tool designed to help you assess your knowledge translation strengths and identify potential areas for development. The tool also provides tailored training materials and support based on the results. [Read more...](#)
