Virtual rounds

TITLE
Women focused digital health research:
Conducting digital research and case study presentation of a digital health research project

LEARNING OBJECTIVES

- To discuss results of digital health scan and the barriers and facilitators identified in conducting digital health research
- To learn how to incorporate patient-oriented research and user-centered design to create equitable digital health tools
- To provide an overview of the development of a web-based resource for postpartum depression

The BC Women’s Research Rounds is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.
